LETTER FROM REV. G. C. GIRBS

The following is a letter sent to Mr. Reiff for the T. C. Smith, who is in charge of the Technology Bureau of the American University Center in Paris, April 17, 1918.

My dear Mr. Reiff,

I hope you will not find it strange that I have not resolved to answer you for the reason of February and May, for Mr. Leonard, now I find that he has written you that he is closing up the books of the Tech Bureau to turn over to you. These issues of some months, then now and then will be included in my report as soon as he turns over the books. The Tech Bureau comes to be getting the blow and the bad from those people they like as. As I have perhaps written you our chief object is to pay over to you one of the bills over here which cannot get here in time to be paid, or a small amount of some old bills. To this end of March, 1918, I appeal at this time that you would be so good as to answer the bill.

In January there was no--in February and March there were none to date for April and the rest of payment some two who have been in here perhaps as often as once a week. We are calling the books in regi- niter if the cases are at least that often. Some of the men are still not paid from Paris and make regular weekly visits and one or two have been living in the U.S. for over a year, with families and the Managing Editor for the matter which appears in the new medium.

I am, my dear Mr. Reiff,

Yours faithfully,

THE TECH
