I. FOTHER BOILED

(Continued from page 1) he are to be printed.

I. FOTHER BOILED

(Continued from page 1) the work done by the different associate editors and assistant. The year's work is now in the hands of Assistant Editors, C. P. Dykes for the Northfield, W. F. Fountain for the Paris, and J. H. Kerr for the Boston Club. For the year's work he is to be thanked, as he has been a real leader in all the works in the past three years.

In 22 days the 1918 and 1919 TECH BIBLES will be printed and 2000 of each of the. These will be the first edition of the Tech Bible for the year 1918. The Tech Bible is a valuable knowledge in their use in the commercial field. We aim to sell our products to the customer's need and with this end in view, conduct laboratory experiments on all shipments of our products to make certain that the requirements have been satisfied in every aspect.

The engineer who specifies Du Pont will be certain of getting a uniform, high quality product guaranteed to do the work for which it is intended.
