PATRIOTISM DEFINED.

TR.UE PATRIOTISM is an essential virtue, a necessity, in fact, in Tech men today. It should be the very first, body and soul. It is that which makes us different from that average Technology man, or else they are not patriotic. He, too, is literate in the English language, he is more patriotic than the average Technology man, or else they are not patriotic. He, too, is literate in the English language, he is not an average Technology man.

The editor-in-chief is responsible for the opinions expressed in the Tech, and the Managing Editor for the manner in which the opinions are presented.
