THE GIFT BEARING GERMANS

If any of the peace proposals which have come from the Teutonic Allies, had come from nations alive to their international obligations, fulsome of distinction, integrity, appreciation as to their general honor, the world might be cheered by the hope that, presently, when the scales had fallen from blinded but honest eyes, we might reach a basis which would offer the poor comfort of a gradual rapprochement. But the Teutonic allies are not such nations—not any of them. They are, together, notorious for the lack of the personal deceit; of the advance repudiation of the very obligations they propose to take; of the absolute indifference to Right; of the unholy means to achieve their ends. This is gladly, the grinning skeleton of other wars; the rudiments of the thousand over here. There must be no heartache in the day of peace, no regrets of those of us who remain behind to support them valiantly in this struggle.

THE NAVY NEEDS MEDICINE
The Navy needs experienced hospital service, as male nurses and junior hospital service personnel are needed. It was stated today that with the great increase of small ships, Navy doctors could be supplied for any of them, as they are of the type needed.
