FIRM OF TECHNOLOGY MEN IS BUILDING GIGANTIC WAREHOUSE FOR GOVERNMENT

The War Department has announced that the enormous amount of stored supplies and equipment, both foreign and domestic, that has been secured or is in course of building to feed its vast needs, not only at home, but overseas, and at storage points for the use of the long Hunter Mission, is being constantly increased. As these stores are completed they will be 2,000,000 square feet of floor space, additional storerooms and space and stores to be on hand for the long war, is in the United States.

Construction of a warehouse under way at Jersey City, N. J., is a project of the War Department. Twelve buildings, containing 1,000,000 square feet of storage space, will be finished in a year, in fact, the whole project is due to be completed by July 1, 1919. These buildings will be used to store the immense amount of equipment that must be rendered for business this fall. These buildings, one of nine stories, will be connected by bridges to the other buildings, which will be of three to four stories, to be erected at Jersey City.

HARVARD NEWS-Seniors of the Harvard classes of the present year announced that the Harvard College class of 1918-1919, known as the "final exam" class, have completed their studies and have been granted their degrees. The class, which includes over 1,000 members, includes all those who have taken part in the war and who have been granted degrees.

As the students of the Harvard class of 1918-1919 have completed their studies, their names will be entered in the Harvard University register as "graduates." At the present time, the Harvard University register contains the names of over 2,000 graduates.
