The Massachusetts Institute of Technology
Cambridge

RICHARD C. MACLAURIN, M.A., Sc. D., LL.D.
President

The Massachusetts Institute of Technology offers courses in Civil, Mechanical, Mining, Electrical, Chemical, Sanitary, and Architectural Engineering; in Chemistry, Electro-chemistry, Biology and Public Health, Physics, Geology and Naval Architecture, and in Engineering Administration.

To be admitted to the first-year class, applicants must have attained the age of seventeen, and must present records of certificates grade in Algebra, Plane Geometry, Physics and English, and passing grades in six or more subjects of preparatory schools.

Graduates of colleges and scientific schools of collegiate grade are admitted without examinations, to such advanced standing as is warranted by their previous training.

A unit of the S. A. T. C. is established at the Institute for both the Navy and the Army.

Correspondence should be addressed to Prof. A. L. Merrill, Secretary of the Faculty.
