New Recruits Arrive Here For The S. A. T. C.

LINNEY '11 DESCRIBES A PATROL FLIGHT

Technology Man Flying With Royal Air Corps Resumes Active Duty After Leave in Paris.

GRADUATE OF COURSE IV

The following letter has been received from Edward Dague Linney '11, who has just returned from two weeks' leave in Paris, France. Linney is in the Royal Air Corps and says:

"I had my first flight all by myself, from Paris, to Chatillon, on the morning of October 13th. We left Paris, got into my own ship and took to the air. It was wonderful that I had taken good care of the engines. "

VITAL FIGURE DOWN TO 600 FEET

"I am told that the new height at which we are now going to fly is 600 feet above the surface of the ground, but I have not the slightest idea where that will take us."

New Recruits Arrive Here For The S. A. T. C.

Very Important

Until the present it has been impossible for men without a high school education to enlist in the United States Navy. This has been due to the fact that many of them leave the Navy before they have had an opportunity to attend school. This is not the case now, however, as the Navy has recently established a new system of recruiting for men who do not have a high school education.

Drill to Be Given

All men under eighteen years of age who are not in the S. A. T. C. may now enlist in the Institute. The following drill will be given to these men:

Kaval Unit, and Lieutenanlt L. -1. Little has been detailed from the first Xerox District to help along until a permanent commandant shall be assigned by the Navy Department.

The rate of compensation for the men will be 25 cents per day, the drills being to be done in rotation, to be arranged by the Navy Department.

NAVY UNIT TO HAVE SEVERAL

Although plans are under way for the formation of baseball teams from the army and other sources of the United States Navy, as well as for the coming Victory Loan Campaign, the college administration has stated that the plans would probably be completed on time and that the baseball would be started within a few weeks.

At the present time there is no likely material among these pursuing students, and a strong effort is expected.

Building 1 is Now Good Ship Copernicus

The front wing of building 1 has been utilized by the Navy barracks and is now called "The Good Ship Copernicus".

REGISTRATION NEARLY AS LARGE AS IN PREVIOUS YEARS

Freshman Class Numbers S56 As Compared With S54

In Last Year's Entering Class, Sophomore And Junior Classes Number S90

ARMY CLAIMS S65, NAVY, S. A. T. C.

Four American flags displayed at Technology Monday marked the incoming of a new class. The different representative activities, the newest ones on a pole, set up only Tuesday, marked the administrative of the S. A. T. C., which will take from 100 to 150 men. A flag was flown by the Navy unit of this corps. The parade ground besides the Valley Memorial is now in requisition for the admission, while on the athletic field lies the one which besides the banner of the Commonwealth in Lowell Court is especially the flag of the Institute.

Registration, which ended Nov. 2nd, with the taking of the head count, was in the charge of the President of the College, and was handled by the Registrar's Office. The number of students enrolled in the last year has an anticipated its studies that it will have been done, but these have now become their degrees and are most of them in the final year, and the second class of students are also in the final year. This is the last year of the students enrolled in the last year and last year with the better figures of 1917 and 1918.

The results are not yet available for a class analysis on the senior students, but the number of those from other countries is relatively large. This is largely because of the great war in which these men have been, the fact that many of the men from other countries have been in the United States for a long time, and that many of them have been in the armed forces of their countries.
