ORGANIZED CREW WORK TO BE DISCONTINUED FOR THE TERM

Rate Between The Army Unit and Oarsmen Considered

After due consideration, the crew management has decided that they will not organize crew work this fall. The Navy Unit has hastily needed to consider such events, as this would interfere with the work which is part of their daily routine. They are very willing to train, to have the men get in shape, the army men in rather on November 15, the date provisionally set for the Army-Navy Athletic Seat.

A race on the date between the crews and the freshmen in nocher in the army or navy unit has been seriously considered. However, the men in the S. A. C. Unit at present only weigh 150 pounds a day, which would be divided into crew work. That is being largely avoided, so that about half of it would come from the army and the other half out of the best homes and look after themselves.

At present the equipment of the Technology Rowing Association is in the best of shape, as preparations had been made to handle a large number of men for Fall Day. Those freshmen in the army or navy units are strongly urged the management to come out a few months a week. Manning is at the best house every afternoon, and will take on any new men looking for opportunities. No experience is needed, and nearly everyone is assured of a place somewhere.

The first attempt at oarsmen training took place earlier in the season, and was found to be so valuable in days to come that those of the crew who were not on the boat, will be sent to Camp Evans.

On being interviewed by a Technology reporter he expounded on the fact that the men in the battalions are a part of the military establishment of the United States and must consider their work seriously. He says while uniforms and replacements, etc., are all, and would be sent to Camp Evans.

The band is expected to have a good start, according to Mr. H. A. M. L. Young, captain of last year's freshman team. Robert J. Sjostrom, L. Yllrely, 1921, captain of last year's band, will probably run from time to time in Walker Memorial hall. The orchestra will be captained by John Atkinson. E. F. Weir, 1920, has been appointed official coach of the orchestra, and the orchestra will be expected to have a good beginning according to Mr. C. M. L. Young.

Having practical data from those having a wide field of experience, the selection and application of explosives, the safety of employes and affects the cost of work, the safety of employes and affects the cost of operations.

For the graduate engineer, there is one way to avoid improper selection of explosives—state the conditions governing prospective blasting operations and ask for recommendations.

The selection of explosives is a most important procedure and largely determines the progress of the work, the safety of employes and affects the cost of operations.
