BULLETIN ISSUED BY TECH BRANCH OF UNIVERSITY UNION

George C. Gibbs, Director of the Tech Bureau in Paris, sends a letter from the Service Men in Europe, telling of the difficulties of the Tech Bureau's duty of handling the correspondence of the men in service.

Mr. Gibbs states: "The Tech Bureau is here for the purpose of serving of service to you. It is not the place for gathering place for Tech men in Paris, a clearing house for Tech correspondence, and a general information office for Tech men that cannot get to the Paris office. Always write to the Bureau in Paris, and write to Mr. Gibbs, who is the person that can take care of your mail."
