From Khaki to Multi

We are prepared to outfit the young men who are going back to civilian togs before many days have elapsed.

EVERYTHING A FELLOW NEEDS
FROM HAT TO SHOES

Is right here in our convenient Street Floor Section for Men. Special thought has been given to the individual tastes of the younger set.

Next year's styles and materials, a ready-to-wear line that meets the hardest fitting problems, a range of prices that will interest you.

Jordan Marsh Company
Exclusive Agents for Society Brand Clothes

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Competition of rates will be keenest than ever in the new era that is opening up. In many fields of endeavor young men and women will be most seriously handicapped unless they have been well trained in the application of science to practical affairs. What Thomas A. Edison said a few years ago is as true now. "We have not enough men who are trained but a few others who are trained to meet the needs of America." And no time may be lost in meeting the needs. The Massachusetts Institute of Technology will admit a new class at the opening of the next term, December 10, 1916, instead of waiting until the fall of next year. An emergency measure the outcome implicit in the new needs, this class will be conditioned for the granting of a higher degree for excellence from colleges. Courses are offered in Civil, Mechanical, Electrical, Chemical, Metallurgical, Mining and Industrial Engineering; Architecture and Architectural Engineering; Industrial Biology; Chemistry; Chemical and Electrochemical Engineering; Biology and Public Health; Civil and Sanitary Engineering; and Engineering Administration. For further information apply to PROFESSOR A. L. MERRILL, Secretary of the Faculty.

ORDER YOUR NEW
Raynitzo Top-now

Have its guaranteed protection against rain, snow and hail for the winter motoring season, possible. At least make sure you will have it for next spring and summer. The top maker is a mighty busy man. He will be unable to fill all the orders offered him.

With new cars impossible to obtain, the millions of used cars must remain in service. So many of these require new tops to make them sightly and serviceable that only those ordered at once can be supplied. Prompt action enables the top maker to plan for labor and materials that will be difficult to obtain later—it insures getting the top material you should have.
