BA-DA-COSTS ALLOWED

M. L. T. Battalion May Also Wear Their Army Costs

Doctor's wife has been set out by Major Turner in regard to Bebo's costs. It was thought for a while that the men in the M. L. T. Battalion would be requested to buy regulation army coats, but it was finally decided that no regulation coats would be purchased. It was also decided that the men would have to buy their own coats and that the regular private's coat may be worn for drilling. Arrangements have been made with the Boston Municipal Government that no regulation coats will be worn by anyone. It is also decided that the men will not turn out as expected, and for this reason it is necessary that the coats be purchased by themselves instead of being purchased by the Government.

The first event was the election of Henry W. Akers '20 as secretary. Other activities included a number of socials and dances, and work on the publication of the 'Tech.'
