THE VOO DOO

A test we hear from the VOODOOG. We are told that instead of hysterics until now as was originally intended, it opened early in the spring. This means that a good many freshmen will be used to try out the "position." VOODOO, the combination of the Technology Monthly and WOOE, will produce a tabloid which will has much the same effect, or been gray in as much as it resembles a tabloid, the student body edition of the Technology Monthly. The role of the "VOO DOO" will be to advertise the voice of the Technology Monthly and the WOOE.

THE TECH

With winter here it is time to think about organizing a hockey team. If we expect to do anything in that line this winter, it is high time that the Technology Monthly put on a call for candidates.

BRIGHT OUTLOOK FOR MUSICAL CLUBS SHOWN BY ATTENDANCE

On Thursday and Friday, Dec. 3 and 4, the M.T.Y. Combined Musical Clubs held two successful trials. The three choral, piano, and minstrel groups showed off some of the new talent that Technology has to offer. Each the harmony and minstrel groups performed splendidly. The number of men that tried out for the Choral Club was well over forty, and approximately thirty men came out for the Minstrel Club. Former students were prevailed upon to sing, and all groups were taken in the best possible light.
