COURSE IV STARTS A NEW ARCHITECTURAL COURSE OFFERS SPLENDID OPPORTUNITIES—WORK TO BE REPEATED

It seems that Course IV has suffered a drought, along with his other courses. The S. A. T. C. appears to have been the victim of this disaster. For this reason it is best to keep things moving, and give the students a new chance and a fresh start.

Professor Lawrence, who interviewed the students, expressed the idea that they appear to be well satisfied with the equipment and work all the way through the course.

This is the purpose of starting the new work at the point where they would normally be after a year of study at the Institute. When the course opens on November 30, 2021, new students will be admitted, along with those who have dropped out and those who have just entered.

In the past, students have been admitted at the end of the school year, but this year, due to the exceptional circumstances, admission will be open at any time during the year. Those who have been attending will be admitted at the same point in their studies.

Students are encouraged to visit the offices of the registrar and the institute office to register for the new course.

THE SAFING IS INCIDENTAL

The big advantage in Craftsman Fabri-Foil luggage is that it stays new. Its surface resists the marks of grease and dirt. It does not scratch, peel or wear salad. As handsome as luggage can be—it retains its beauty through long service. Snow and water remove all the stains of travel.

Do not hesitate to buy Craftsman luggage—because the price is moderate but do not buy unless you see this stamp on the bottom.
