Men In Company 3 of Naval Unit At Technology

A new Student Flotilla for the year 1918-1919 has been issued by the Institute and capsizes will be held on application at the Information Office. For the first time the numbers at the address of the man have been placed on the capsize. The first letter of the word "Naval" which is the last in the B. A. T. C. S. M. Y. C.

NAVAL UNIT DEATHS

D. W. Carry 'at and Cook 'asked

Victims of Accidents

David Woodworth Carry 'W was born 22 years ago in Newton Highland, Mass. He extended the various Newton Abilities won by graduated from the High School in 1931. During his freshman year, Carry was suspended from the Athletic Association. He played the viola in the Tech orchestra, and was a member of "The Tech" news staff. This year the naval unit claimed almost all of Carry's attention, but he found time in play in the navy orchestra. Last semester he so fanatically opposed an offer on account of his country, and was a rivet in the Charles River Navy Yard. A member of the Phi Delta Epsilon fraternity, he took a keen interest in all athletic events. His death came after a heart attack in the naval dispensary and Chief Surgeon Parmelee was given the news on the same day. He died on November 1, and was buried by all. He was buried Friday with full naval honors.

The announcement of the death of the naval unit's second member, Carry, comes as a shock to all those who knew him. Cook came to the Institute from Monticello, N. J., where he graduated from high school in 1918.

COMPETITION FOR CREW START SOON

Rowing Machines To Be Installed

Plans are under way to start the crew season as usual. For the next term, rowing machines will be installed from the B. A. T. C. Institute, and will be used throughout the Institute building. Practice will be held every week once a week. "Freshmen, will be able to develop their physical condition through practice. On Saturday, the "A. T. C. T. R. will have a practice for the "B. A. T. C. T. R. in the running basin. Coach A. W. Stevens will be here at the new machine, and the crew already, will be in the boat.

There will be no exercises in Cambridge on Monday December 21, the first day of December. The first rowing of the season will be on Wednesday, December 19, in the Main Court, and there will be no exercises in Cambridge until December 21.

CARD TO REV. HARFORD BRIDGE

Will Run on Single Track During Construction

For the last three weeks there has been an extra, special track of the Bridge between Harvard and Cambridge streets. This track was needed at the time of the construction of the Bridge because of the difficulty in maneuvering the special cars for the special trains. The difficulty of the matter is that the special cars cannot pass at one time. The space is so narrow that a street car and two automobiles cannot pass at one time. The engineers in charge of the work say that the addition of street cars to the special trains will make the work much easier. The traffic is great, and especially to Technological students. The construction of the Bridge has been made necessary by the addition of street cars to the special trains. There will be no exercises in Cambridge on Monday December 21, the first day of September. This will be the last day of the Bridge.

There will be no exercises in Cambridge on Monday, December 21, the first day of December. The first rowing of the season will be on Wednesday, December 19, in the Main Court, and there will be no exercises in Cambridge until December 21.
