PERSONALS

Navy of the death of Capt. Karl G. McKenney '18 has just been received by his parents, Lewis T. and Katharine C. McKenney, 19 Chase Ave., Automotive. He was born in France on May 28th, 1888, and died in France on April 3rd, 1919.

Cap. McKenney was the son of Dr. Julius McKenney, a prominent physician of Cambridge, Mass. The family was of Scottish descent and the family home was in the town of McKee, Ayrshire, Scotland.

The Navy Department has communicated the following news to the family: "The men who served under him were always inspired and encouraged by his example. He was a man of extraordinary courage and determination, and his loss is deeply mourned by all who knew him."

The family requests that the memorial service be held at the First Parish Church, Cambridge, on December 25th, 1919, at 2:00 p.m. All those who knew him are invited to attend.

The United States Navy has declared Capt. McKenney a hero of the war and awarded him the Gold Star in lieu of the Medal of Honor. The Gold Star is a symbol of honor and respect for those who gave their lives in service to their country.

The family requests that those who wish to honor Capt. McKenney's memory make a donation to a charity of their choice or to a military organization. The family has established a fund in his name at the First Parish Church to support military veterans and their families.

The family thanks all those who have expressed their condolences and support during this difficult time. They request that all communications be sent to the family's residence at 19 Chase Ave., Automotive, Cambridge, Mass.

The family requests that the public respect their privacy during this time of mourning.

The Massachusetts Institute of Technology Cambridge

RICHARD C. MACLAURIN, M.A., Sc. D., LL.D.
President

The Massachusetts Institute of Technology offers courses in Civil, Mechanical, Mining, Electrical, Chemical, Sanitary, and Architectural Engineering; in Chemistry, Electro-chemistry, Biology and Public Health, Physics, Geology and Naval Architecture; and in Engineering Administration.

To be admitted to the first-year class, applicants must have attained the age of seventeen, and must present records of certificates grade in Algebra, Plane Geometry, Physics and English, and passing grades in six more units of preparatory subjects.

Grades of colleges and scientific schools of collegiate grade are admitted without examinations, to such advanced standing as is warranted by their previous training.

A unit of the S. A. T. C. is established at the Institute for both the Army and the Navy.

Correspondence should be addressed to Prof. A. L. Merrill, Secretary of the Faculty.
