**MEN WITH A PURPOSE**

**T**HE things that **ABERTHAW** builds are not put up for play. Factories, storehouses, power plants, shipyards,—each piece of this Company's work constitutes a producing element in the wealth of the Nation.

Each must be designed to fulfill a need completely foreseen. Each must be constructed so ably, so honestly, so economically that, when the finished plant begins to operate, its output will be burdened with no unnecessary costs due to the builder's mistakes.

Meeting these requirements is serious business for serious men; men who are trained to their task, who value reputation above immediate profits, and among whom honesty is not merely a company policy but a personal code.

The growth of **ABERTHAW** during a remarkable quarter century is due to the steadfast effort of such men. Today the Company is always glad to make place in its expanding organization for others of similar promise.

Correspondence from graduating engineers who can meet the specification is invited.

(Continued from page 1)

Several members of the Junior class are very anxious to form a crew, and a meeting has been called on Thursday for the purpose of discussing this question. The meeting will be held in room 4-108. It is important that all members of either the class of 1919 or 1920, who are interested in crew, attend.

A meeting of the freshman managers will be held in room 4-108 at 1.30 P. M., Thursday.

For the present all men, both freshmen and Sophomores, will continue to report every afternoon, except Saturday and Sunday, the hours of practice being from 4 to 6. New men can report at any of these hours. As soon as possible, a new schedule of practice hours will be worked out for each crew, and will be posted in the boat-house.

**MISS FOGIER AND DEYETTE HURT**

(Continued from page 1)

and having completed the work, went out for a short walk. It was on their way back, when but a block from Miss Fogler's house that the accident took place. After having struck the couple and driven away, it is said that the man driving the Carry automobile returned to the scene where he was detained and questioned by the police.

When news of the accident reached the Institute on Monday morning, several members of the faculty visited the hospital to find out the condition of the students, and to see if the Institute might be of service in providing for their comfort. In addition, the many Technology friends of Miss Fogler and Deyette were deeply concerned over the unfortunate affair and many inquiries have been made as to the progress of the two.

Miss Fogler is prominent in the Institute's undergraduate activities, being an Alumni Editor of THE TECH, secretary of the M. I. T. Branch of the A. I. E. E., secretary of Cleofan, and a member of the Cosmopolitan club and the Electrochemical society. She is in the Electrochemical Engineering course with the Class of 1920.

Joseph C. Deyette is a Theta Delta Chi man, also in Course XIV, with the Class of 1920. He is well known in Technology circles as the manager of the championship varsity wrestling team, and a member of the Finance Committee and the Electrochemical society.

Believing it is expressing the feelings of the faculty and student body of Technology, THE TECH extends to Miss Fogler and Deyette its sincere wishes for a speedy recovery and an early return to the Institute.
