

SOPHOMORES TO TAKE COURSE IN ARTILLERY

Lieutenant Col. F. M. Green '09, C. A. C. Detailed at Institute To Organize an Artillery Section of the R. O. T. C.

LECTURES PROVE INTERESTING

Lieut. Col. Fred M. Green, C. A., has been detailed at the Institute by the War Department for the purpose of organizing an Artillery Section of the Reserve Officers Training Corps.

LT. COL. F. M. GREEN, C. A. C.

Col. Green is a graduate of the Institute, having entered in the fall of 1905 and graduated from Course VI in June, 1909. After a year of work in the west, he was commissioned a second lieutenant, Coast Artillery Corps, United States Army, in September, 1910. He served at Fort Monroe, Va., on border duty in Texas, at Fort Washington, Md., and at Fort Greble, R. I. In 1915, he was ordered to the Coast Artillery School at Fort Monroe, and became an Honor Graduate of that school in the following year. He was then detailed to advanced work in ballistics, and was engaged on research work at the entrance of the United States into the war. After some work in investigating technical artillery problems in the preparation of material for artillery work overseas, he was detailed as instructor in Gunnery in the Training Camp for Reserve Officers then being organized at Fort Monroe, and remained on that duty with the Artillery Board until last September, when he was detailed as Artillery Inspector of the Coast Artillery Training Center. He was promoted to first lieutenant in 1916, captain in 1917, and received a temporary commission as major and an emergency appointment as lieutenant colonel. During the war, more Technology men entered the heavy artillery than any other arm of the service except the Corps of Engineers. This is not surprising, as heavy artillery work is largely civil and mechanical engineering of a specialized kind. There is just as much reason for an engineering-trained man to enter a technical branch of the army in time of war as there is for a graduate doctor to enter the Medical Corps. The regular second-year work of the Institute establishes the foundation for an artillery course; in fact, during the war, candidates for artillery commissions were trained along lines strongly resembling, in many re-

(Continued on page 3)

DATE OF PROM CHANGED

The Junior Prom will be held on the night of Thursday, May 29, instead of May 30. This change has been necessary to avoid conflict with Tech Show which is to play at Northampton on the 30th.

Sign-ups for the Prom will open Monday, April 14. The sign-ups will cost \$2.50 and are limited in number. Tickets will cost \$5.00 additional, making the total cost of the Prom \$7.50 per couple.

CONFERENCE SCHEDULE IS ANNOUNCED BY DEAN

Dean Burton wishes to announce that a schedule for conferences on the choice of courses has been arranged with the heads and members of the various departments for the junior freshmen. These conferences, however, are open to all freshmen, and especially those who are in doubts as to what course they wish to continue. The schedule follows: Courses I and XI, Prof. Spofford, Monday, April 7, 1 P. M., Room 3-370. Course II, Prof. Miller, Tuesday, April 8, 1 P. M., Room 3-370. Course III, Prof. Hofman, Wednesday, April 9, 1 P. M., Room 8-419. Course IV, Profs. Lawrence and Cram, Thursday, April 10, 1 P. M., Room 4-270. Courses V and X, Prof. Talbot, Wednesday, April 16, 1 P. M., Room 10-275. Course VII, Prof. Sedgwick, Friday, April 14, 1 P. M., Room 4-213. Course VI, Prof. Laws, Monday, April 15, 1 P. M., Room 10-419. Course VIII, Prof. Wilson, Tuesday, April 15, 1 P. M., Room 4-234. Course XII, Prof. Lindgren, Thursday, April 17, 1 P. M., Room 4-340. Course XIII, Prof. Peabody, Monday, April 21, 1 P. M., Room 1-215. Course XIV, Prof. Goodwin, Tuesday, April 22, 1 P. M., Room 4-122. Course XV, Prof. Dewey, Friday, April 11, 1 P. M., Room 4-270.

1919 OUTDOOR TRACK SCHEDULE ANNOUNCED

Technology To Clash With Harvard in First Formal Meet—Season Opens with the Penn Relays

TRACK PROSPECTS GOOD

The progress of the Technology track team during the week has been very encouraging. The coming of warm weather and the condition of the cinder track have made it possible for Coach Kanaly's athletes to abandon the board track. Manager Paul Anderson '21 has succeeded in arranging an attractive schedule which will bring Technology up against the best college teams in the country.

The season opens on April 26, when the mile relay team will compete in the annual Pennsylvania Relay Carnival at Philadelphia. The Carnival will be on a pre-war basis and promises to be one of the largest track and field competitions of the year. Nearly 300 relay teams from schools and colleges all over the country have already signed up for the relay event. Judging from the results of the indoor meets held this winter, Technology's strongest opponents will be the University of Pennsylvania and the University of Chicago. The meeting of these three teams will be a feature of the Carnival.

The meet which promises to bring forth the liveliest interest to all those concerned and the student body as a whole is the dual meet with Harvard to be held on Tech field, May 3rd. "Pooch" Donovan the veteran Crimson coach is quoted as saying that he would rather beat Technology than any other college in the country. This is the first formal meet that the Institute has ever had with the Harvard track team and from Donovan's words great work is expected on the part of Technology's athletes. The other important meet is with Dartmouth on May 10th, Saturday. The season winds up with the Intercollegiate.

FRESHMEN ATTENTION

The 1922 campaign for Field Day will start with a mass-meeting in room 10-250 on Monday, April 7, at 5 o'clock. The coaches of pushball, tug-of-war, and track, will all be present, and will outline their plans of organization and hours of practice. All freshmen who are going out for the different events, should be ready to present their choice of the activities at this meeting. Men out for the events will be excused from physical training.

RESULTS OF SHOW COMPETITION ANNOUNCED

Lively Contest for Positions on This Year's Managing Staff Ends. — Excellent Program Arranged

MEN NEEDED FOR ORCHESTRA

Most of the Tech Show Competitions are now over and the management wishes to announce the winners, and express their appreciation of the loyal support, which the competitors have shown to the Show.

The business manager has chosen the following men for the contested positions on the management of the Tech Show, 1919.

For Sophomore Assistant Business Managers, R. J. Spitz, and H. W. Smith. For assistant to the General Manager, E. T. Steffian. The freshman Assistant Business Managers are B. Haskell, Jr., H. C. Ham and R. A. Stone. These men have shown the most satisfactory business ability and are best fitted for the positions. The competition has run for three months and a large number of both Sophomores and freshmen have participated. The interest has been unusually keen and a large amount of work was accomplished by all the competitors. The Sophomores who deserve special recognition for their faithful work in the competition are H. C. Field, W. F. Clements and W. C. Koh. Of the two successful Sophomores one becomes Business Manager in his third year and the other becomes treasurer. The choice is made after the last performance of this year. The appointment of an assistant to the general manager from the business department competition has been made, because it was felt that it would be more advisable to have a man with two years experience on the Show rather than one with no previous theatrical knowledge whatsoever. Next year the same freshmen have to compete over again for business manager in the Sophomore competition which is open to all members of that class. The business department looks forward to having one of the most successful years in its history as the advertising prospects for the program are exceptionally good. The stage delicacy Department has been the keenest competitions which has lasted for three months. Twenty-three men were out and during the two months all but three of these have been eliminated. The successful competitors are G. D. Goddard, H. A. Kaufman and W. C. Morse. These three positions in the Stage department lead directly to a managership in the Junior year. The present three chosen will compete in their Sophomore year and the best man is picked at the end of next year's show for stage manager in his Junior year.

The freshman competition in the Publicity Department has been the keenest in years, so much so that the management has had difficulty in choosing the

INTERFRATERNITY BASEBALL STARTS NEXT WEEK

Interfraternity baseball will be started next week. There will be four leagues: Cambridge, Beacon, Commonwealth and Bay State. The Cambridge league will be composed of the following fraternities: Delta Kappa Epsilon, Delta Tau Delta, Phi Beta Epsilon, and Theta Delta Chi. The Beacon league: Sigma Alpha Epsilon, Sigma Chi, Phi Sigma Kappa and Delta Upsilon. The Commonwealth league: Phi Gamma Delta, Kappa Sigma, Theta Xi and Lambda Phi. The Bay State league: Alpha Tau Omega, Beta Theta Pi, Lambda Chi Alpha, Phi Kappa Sigma and Theta Chi. The opponents will be drawn by lot, and provision will be made for the losers to play each team. The new Spaulding baseball rules will be used. Each team will be obliged to furnish one ball and an umpire. No game of less than five innings will be counted in the final averaging of the league score. Notices will be sent to the Fraternity houses each week showing the progress in each league. All arrangements will be made by telephone by W. M. B. Freeman, Newton South 376.

TENNIS CANDIDATES REPORT SCHEDULE IS ANNOUNCED

Tennis candidates were halled out Friday and from these forty or fifty men the management hopes to pick another winning team to equal last year's one. Last year the team captured the Intercollegiate Tournament, taking first in the doubles and second in the single. According to Manager Lawrence Boyden '20, several matches have been arranged.

The schedule is as follows: Apr. 26—Harvard at Cambridge. May 12—New England Intercollegiate Meet.

May 17—Yale at New Haven. May 24—Dartmouth at Hanover. May 20—Tufts at Medford.

The Dartmouth match comes during their Junior week. Meets are also pending with Bowdoin and Amherst.

According to Manager J. Greenblatt '22 there is material for a good freshman team. One tournament has been arranged for the first year men with Andover and others are pending with Tufts '22, Milton Academy, Groton, Middlesex, and Exeter.

ACCIDENT FATAL

Joseph Coleman Deyette '20 Dies after Unsuccessful Operation

The Tech regrets to announce the death of Joseph Coleman Deyette '20 of Portland, Oregon. Deyette was injured last Sunday evening when he was struck by a passing automobile while crossing Commonwealth Avenue, and was immediately rendered unconscious. He was rushed to Commonwealth Hospital and an examination showed him to be in a critical condition. However, his recovery was expected until his continued unconscious state led to a consultation of three of Boston's best doctors, and it was decided that an operation should be performed. The result was that his

JOSEPH COLEMAN DEYETTE '20

brain was found to have been practically crushed to a pulp, Deyette died Tuesday Morning. His parents had been notified immediately after the accident, and they were kept posted as to his condition. When notified of his death, they desired the body to be sent home, and the funeral is to take place there.

Deyette was a course XIV man member of the Electrochemical society and a member of Theta Delta Chi fraternity. He was prominent in activities and held the positions of a member of the Finance Committee and manager of the varsity wrestling team. Miss Folger who was with Deyette at the time, was also injured and taken to the hospital, however, she is improving rapidly and as her injuries were not ver seriously her condition is not alarming.

M. E.'S TO HOLD SMOKER

The Mechanical Engineering Society will hold a meeting on April 9, the exact time and place of which will be announced later. There will be a description of thermite welding by a man from one of the largest thermite welding concerns in this country, accompanied by moving pictures of actual thermite welding.

DATE OF FIELD DAY CHANGED TO APRIL 25

Eighteenth Annual Contest Between Sophomores and Freshmen To Be Held For First Time in Spring Term

HALF-HOLIDAY DECLARED

Field day which was scheduled for Friday, April 18th, has been postponed until the following Friday, April 25th. The annual struggle between the Classes of 1921 and 1922 was set back a week because of conflict with Good Friday. A half-holiday has been granted by the faculty, thus allowing the activities to begin at 2:30 P. M. The plans have nearly been completed by the committee on Field Day. Two new events will make their appearance in the form of a crew race and a push ball contest, the latter of which has been substituted for the usual football game. The classes will struggle for supremacy in the Relay Race, Tug of War, Push Ball Contest, and Crew Race. The two classes started this week to organize their teams and the right to have their numerals engraved on the loving cup will be hotly contested between them.

The tradition of Tech Night, the logical celebration of the older tradition of Field Day promises to become a surety. Arrangements are being made for the sale of practically the whole house at some theatre to Technology men. This evening has been one of the most enjoyable features of Field Day for both victors and vanquished, the announcement of the theatre selected is looked forward to with interest.

INSTITUTE COMMITTEE HOLDS MEETING THURSDAY

A regular meeting of the Institute Committee was held April 3 in room 10-275. President Nash called the meeting to order at 5:15 o'clock. The Secretary's report of the meeting of March 6 was read and approved.

Mr. Burt, chairman of the Finance Committee, reported that a special meeting of the Finance Committee was held Tuesday to consider the proposition of uniting several of the bank accounts of the Institute Committee into one account. The committee reported that it advised the uniting of all the accounts of Institute activities with the exception of THE TECH, Technique, Tech Show, Voo Doo, and Musical Clubs.

Moved by Mr. Burt that the bank accounts of "All activities represented on the Finance Committee with exception of THE TECH, Technique, Tech Show, Voo Doo, Musical Clubs and such other activities as the Institute Committee may at any time elect shall be united under one account and placed in the hands of one treasurer who shall sign all cheques at least two stated times during the month." The motion was seconded and after much discussion and on in which it was pointed out that the combined accounts would then draw interest, and extend credit to the small-

(Continued on page 3)

The Technique Grinds Contest closes to-day at 1 o'clock. A special volume of Technique 1920 will be awarded to the winner. No material accepted for competition after this date.
