

Our Inflexible Quality in Clothes

SCOTT CLOTHES have a worthy tradition, an active present, and an energetic future to live up to.

We have had to sift and search with more diligence than usual to cover our standard. How well we have succeeded remains to be seen; interested, busy buyers offer a tribute to our cloth chief and to the taste exhibited in our own work-rooms. Spring Suits in imported fabrics.

\$40 to \$65. Ready-to-wear.

to carry the machine. At the same time an east wind sprang up, though in the course of a few hours the breeze literally boxed the compass, sweeping in from all directions. Government meteorological officers' reports indicate a general area of depression over the north Atlantic, with a probability that things may go from bad to worse.

Hawker's Sopwith plane has a wing spread of 46 feet 6 inches and is 31 feet in length from the radiator to rudder. It has a Rolls-Royce engine of 375 horsepower which turns the crankshaft 100 revolutions per minute, although this has been geared down. Added to this, Hawker plans to slip the under carriage. It works on a trip contrivance and the entire chassis will be dropped with one pull in order to reduce wind resistance. Its weight is negligible. A single pull will release spars, wheels, and other wind resisting parts. This means whenever he lands, a smash-up is almost unavoidable.

Major Wood, who plans to fly from Ireland, is a man of courage, good sense, and valuable experience in flying, according to his friends. He has been awarded the military cross for clever work on the western front, and has spent some time in command of a squadron in the south of Ireland.

LECTURES TO CHEMICALS ON DEVELOPMENT OF EXPLOSIVES

E. M. Symmes '11 to Give Illustrated
Talk Tomorrow Evening.

The members of the Chemical Society will hear a talk Thursday night by E. M. Symmes '11 of the Hercules Powder company, on the Development of Explosives. The meeting will begin at 7.45. in the Dormitory Dining room of Walker Memorial. A set of lantern slides has been prepared by the Hercules Powder company and Technology is one of the first places where this talk has been presented. Membership tickets are ready and all members of the society can procure them at the close of the meeting. Apple pie, ice cream, and "smokes" will be served.

STUDENTS FLOCK TO PURCHASE BEST TICKETS FOR TECH NIGHT

Monday morning at eleven o'clock the tickets for Tech Night were put on sale in the main lobby. The sale of tickets was fast and a long line of purchasers extended through the lobby. The Tech Night management announces that they have still a few good seats left for those who step lively. About thirty Sinbad posters were placed in the corridors of all the buildings.
