CHEMICAL SOCIETY HEARS TALK ON EXPLOSIVES

The Chemical Society held a smoker Thursday evening in the north dining room of Walker at which Mr. E. M. Symmes '11 of the Hercules Power Co. gave an illustrated talk on acids and dynamite. Mr. Symmes is a graduate of Course V and felt very much at home among Technology men. After the address apple pie, ice cream and "smokes" were served.

TO GIVE TALK AT MUSEUM ON SIENESE PAINTING

Mr. John Shapely will speak on "Sieneese Painting" in the Museum of Fine Arts in Class Room A tomorrow afternoon at three o'clock. The lecture is free to all.

R. O. T. C. TO HELP

(Continued from page 1)

call. Bonds sold or pledges received by members of the R. O. T. C. should be placed to the credit of the R. O. T. C. unit. This competition will not interfere with, but is to assist in the subscription of local quotas. Call for daily report and furnish combined daily reports to the committee by mail for the time being.

(Signed) "MORROW."

It is hoped that not only Technology, but the R. O. T. C., as an organization, will do everything possible to assist in making this loan a success. The government has been extremely generous to students in the past year. During the S. A. T. C. period it paid all college expenses, board, food, clothing, monthly pay, and in addition has not discriminated against the members of the S. A. T. C. in giving a bonus. Many others will receive State bonuses and yet they rendered no real service, although ready to do so. The military work was not sufficient to interfere with their college course, so they received the benefits while taking the ordinary college course for which they would have otherwise paid the usual fees and expenses. Consequently they should feel ready to assist the government to the extent of their power, particularly as they are not called on to give anything, but to lend money on the best security in the world for a few years at a rate of interest, which, considering the security, is tremendous. A few years ago government bonds paying three per cent interest were selling always at a premium.

A couple of years ago a Technology student in the Architectural Department gave up his course to go out and battle for civilization. He was not willing to wait to get in the United States forces, but went into the Lafayette Escadrille. He was afterward transferred to the United States Air Service, but found a chance to get into action, went out as a volunteer with his old unit and was killed while flying over the enemy's lines. A few days after his death a letter was received by Dinsmore Ely's father, which has been circulated in millions of posters and newspapers, has raised Ely to the rank of one of the country's most notable figures and which should be of great value in inspiring all Technology men to do their best. He wrote:

"And I want to say, in closing, if anything should happen to me, let's have no mourning, in spirit or in dress. Like a Liberty Bond, it is an investment, not a loan, when a man dies for his country. It is an honor to a family, and is that the time for weeping? I would rather leave my family rich in pleasant memories of my life than number in sorrow at my death."

Dinsmore Ely gave without hesitation, cheerfully and gladly all he had to give in the cause of civilization. His life and his heroic death should be an inspiration to all to give to the point of sacrifice.

In order that a record may be kept of what the Technology R. O. T. C. is doing for the Victory Loan, it is requested that every member of the R. O. T. C. inform me by letter, or by signing a paper in the office of his investment in the loan. It is not desired that the record should be exclusive of any other report. If you invest you can report in your town, your college and your R. O. T. C. It is desired to know just what the R. O. T. C. as a body is doing to assist in this matter. What you do will not only be of direct help, but your pledge will be an encouragement to others to help and we will try and make the contribution of the Technology R. O. T. C. a notable one.

Please be sure to report.
(Signed) EDWIN T. COLE.

RELAY TEAM COMPETES

event. Frank Shea, their star is again running true to form and is liable to cause the other colleges considerable worry.

Bawden, Spitz, Downey, and Orman compose the team which will represent Technology. In the drawing for the pole, Technology rated tenth. The drawing is as follows: 1. Iowa; 2. Cornell; 3. Columbia; 4. University of Pennsylvania; 5. University of Michigan; 6. University of Missouri; 7.

Northwestern; 8. Dartmouth; 9. Pennsylvania State; 10. Technology; 11. Princeton; 12. University of Pittsburgh; 13. University of Chicago. During their stay at Philadelphia, the team will stop at the Hotel Walton.

COL. PRIDGIN OF SIGNAL CORPS LECTURES TO E. E.'S

(Continued from page 1)

of the small low antennas to which they are connected are capable of transmitting for a surprisingly long distance.

Several very realistic views were thrown on the screen showing the radio units working under fire. Some of these were quite unusual in their portrayal of actual conditions prior to the signing of the armistice.

As this affair was considered a regular smoker of the Society the usual supply of cigarettes, cider, and doughnuts was not lacking.

Special Meetings Next Week

An announcement has been made that Mr. Arthur Wright, the noted English consulting engineer, is expected to deliver a lecture to the members of the society next Tuesday evening, April 29, in the North dining hall of Walker. Mr. Wright is prominent in the electrical field for his numerous inventions, among the latter being the so-called "demand meter" which is extensively used by power companies for recording the power demand through the day at intervals of one minute. Such is the importance of Mr. Wright's work that he has been knighted and has received the highest praise of the British professional societies. Recently he undertook a trip to America for the furtherance of scientific enterprises, and starting at the Pacific Coast he has traveled eastward and is expected to arrive in Boston today. Although Mr. Wright is scheduled to leave the country next week, he has consented to address the Electricals Tuesday evening if nothing interferes with his present plans.

President Deal further announced that in case Mr. Wright was prevented from coming, a trip to the turbine department of the General Electric Co. at Lynn would take place on Wednesday afternoon. Members of the society have been strongly urged to watch the bulletins outside the society's office and also in the lobby for a definite announcement which will be posted on Monday morning. According to men who have heard Mr. Wright lecture, all Electricals should be present on Tuesday evening.

TECH SHOW ANNOUNCES FINAL CUTS IN STAFF

(Continued from page 1)

Stage Manager

John A. Philbrick, Jr., '20

Sophomore Assistants

Paul L. Hanson '21

Stuart Nixon '21

Freshman Assistants

Herbert A. Kaufman '21

Winslow C. Morse '22

George D. Godard '22

Treasurer

Ernest P. Whitehead '20

Faculty Advisors

Percy Marks

Robert E. Rogers

E. D. Ryer was stage manager of the show last year and also vice-president of the class of 1920. This year he is a member of the activities committee and is coaching the freshman tug-of-war team. Percy Bugbee '20 was assistant business manager of last year's show and this year, in addition to his duties as business manager, is treasurer of Corporation XV. Hiram Y. Waterhouse '15 has been property manager of Tech Show for several years past. Walter S. Frazier '19 has also been connected with the show for several years. Twice he has been leading man and once stage manager. W. T. Hedlund did a great deal of work in connection with the music for the show last year. George R. Knight '19 has been with the stage department in past years but has charge of the publicity department this year. John A. Philbrick '20 was Sophomore assistant stage manager last year. Ernest P. Whitehead '20 was connected with the business department of Tech Show 1918.

The final cuts in the orchestra have also been made and the successful competitors are as follows:

The management of TECH SHOW 1919 is as follows:

Manager—Herbert W. Reinhard '21

First Violins—R. L. Sunwalt '22.
