

## PRESIDENT IS HOST

Dr. Maclaurin Entertains Members of Courses II and III

The second reception of the season was given by President Maclaurin to Institute men last Saturday evening. This time Courses II and III were entertained. The "Shadow Play" which was recently performed before Courses V, VII, and X was again enacted.

The affair began when the guests sang "Retrospection" and "Take Me Back to Tech," Mrs. Maclaurin insisting that it be sung again, this time with more fervor. President Maclaurin then announced the main feature of the evening, a very dramatic shadow play entitled "The Freshman's Fate," the scenario being written and read by Professor Rogers, the shadows being undergraduates.

The picture depicted the trials and tribulations of Cyrus Winterbottom, a young man from a town near the city of Worcester, whose father hearing of the high wages paid to carpenters, decides that Cyrus must have a technical education. Cyrus sends his picture to the Registrar and is duly admitted. After being in the Dorms a month he finds that the egg and butter money which his mother has been sending from home barely pays for the pleasures of his two friends Gus and Bill who are learned in the science of Poker. Cyrus has innumerable other troubles, the least of which is his school work. He can absorb enough of his assignments in two hours to last him a week.

He naturally turns to other more pleasurable pastimes. With the advent of spring he decides love making to be appropriate and indulges in two affairs, one with a coed the other with "sue of the lunch room," neither terminating very successfully for Cyrus. At the end of the term, having by some oversight failed in his exams, he is permitted to leave Technology. In later years Cyrus becomes a very prominent man and from his many references and donations to Technology is known as one of the most prominent Alumni. That he may leave a final donation, one fitting and proper for so prominent an Alumnus, he wills one million dollars to the Institute to be used for the construction of a large building on a cement island in the middle of the Charles river for General Studies, with a leaky row boat as a means of transportation to and from the Institute.

The play made a great hit with the fellows and Professor Rogers was given three cheers in appreciation. Several selections were played by W. T. Hedlund, C. L. Eksergian and Miss Slack and two vocal selections were sung by H. O. Davidson. Ice cream, cakes and coffee were then served and a few more selections were rendered by Miss Slack and Hedlund, terminating a very enjoyable evening.

### COMPETITION FOR TREASURER OF THE TECH COMMENCES

Twelve men, mostly Juniors and Sophomores, were present at the first meeting of the competitors for the position of Treasurer of THE TECH held in Walker Memorial Monday at 5. From among these men are to be chosen one treasurer and two assistants. The competition is a continuation of the "money talks" given last term. It will take about one hour a day and will last for one week. The problems to be discussed correspond exactly to the duties of the man to be elected.

The competitors will be given neostyled sheets of daily transactions of THE TECH and will be required to make the proper entrances in the books. An experienced accountant will be present at all times during the week to give assistance to those desiring it. At the end of the week, an examination will be given. Here the competitors will be required to do the work without assistance. The result of this examination and the man's general ability and knowledge of Institute affairs will be taken into account in the elections.

The results will be announced next week and the successful men will take up their work immediately. The treasurer will automatically become a member of the Managing Board of THE TECH.

### FACULTY VIEW 26TH PARADE FROM ROGERS

Tickets admitting the instructing staff to Rogers Building on the morning of the parade were given out to about 750 members of the faculty and Alumni. Over two hundred of the faculty and their families took advantage of the opportunity to watch the much heralded Yankee Division parade from the windows and balcony. The city had erected stands on each side of the entrance of the building for the relatives of soldiers. The previous night Major Smith, superintendent of buildings, had a stand erected in front of the entrance which was occupied by the clerical and maintenance staff.

### VICTORY LOAN COMMITTEE TO CANVASS STUDENTS

Saturday the first meeting of the Technology Liberty Loan Committee was held in Walker Memorial. Merrill B. Knox '20, was chosen as chairman. A member of the Cambridge Liberty Loan Committee outlined a campaign and distributed material to the committee.

The Cambridge Liberty Loan Committee has been able to secure a few German helmets which were recovered when the American troops entered Coblenz. One of these helmets have been given to the Technology Loan Committee and will be given to the solicitor who gets the greatest number of individual subscriptions. There is a history attached to these helmets. They were captured at Coblenz and are brand new. They were to be issued to the victorious German troops for their triumphal entrance into Paris. This ought to prove an incentive to all men on the Committee.

Subscriptions will be solicited by courses and a bulletin will be posted in the main lobby to keep the students acquainted with the results of the cam-

paign. The Liberty Loan Campaign will continue until May 10th.

It is hoped that men who are planning to invest in a bond to see a member of the Committee. Those who wish their amounts to be credited to their home town may very easily do so. Arrangements have been made with the Cambridge banks so that it is now possible to buy a bond by paying a dollar down and a dollar a week, or it is also possible to buy one on Government terms i.e., ten percent upon application, ten percent July 15, twenty percent August 12, twenty percent Sept. 9, twenty percent October 7, and the final twenty percent on November 11, with interest on deferred installments. By this arrangement it is possible for more students to purchase bonds where they are unable to pay the entire value of the bond.

The VICTORY LIBERTY LOAN needs no introduction. It is already here. There has been no actual quota set for Technology but it is hoped that every student will do his share to surpass the Institute's previous record in the sale of Liberty Bonds.

The following is a list of members of the Technology Liberty Loan Commit-

tee: Merrill B. Knox, chairman; R. W. Barker, W. R. Barker, L. M. Biddell, O. Cammanon, Jr., F. N. Dillon, W. T. Ferguson, H. C. Gayley, Z. P. Giddens, G. F. Gokey, V. C. Hassold, F. B. Kirtledge, E. N. May, P. S. O'Brien, T. E. Shepherd, W. J. Towel, Jr., William H. Young.
