

R. O. T. C. STUDENTS MAY TRAIN IN SUMMER

Government Proposes Six Weeks Instruction At Camp Eustis, Va.—Two Years Of Military Science Required for Admission

FORTY MEN HAVE SIGNED

The War Department is considering the project of holding a camp of instruction in artillery work at Fort Monroe and Camp Eustis, Va., beginning about July 1, 1919, and lasting for six weeks. About 40 Institute men have so far registered their interest in this project. Whether or not this camp will be held depends upon the number of applicants from the various colleges of the country.

While the camps at Plattsburg, prior to the war, were open only to those who could pay all their expenses, the present arrangement is a much more attractive one. Briefly, the offer of the Government is as follows: Students who have satisfactorily completed their two years of Military Science which is required of all students at the Institute, may apply for advanced work in the Reserve Officer's Training Corps. Such students must agree to attend two summer camps, each of six weeks duration, and preferably in the summers which follow his Sophomore and Junior years, and must devote about two hours per week to military studies during his Junior and Senior years.

To such a student the Government will pay his transportation to and from the camp, will furnish his uniform, board and medical attendance, and will pay him the value of the ration (now commuted at the rate of \$12.00 per month) for the entire period during which he

BANQUET WILL MARK CLOSE OF MUSICAL SEASON

Officers and Leaders for Next Year to be Elected This Week

The annual banquet of the Combined Musical Clubs will be held Thursday night in Walker Memorial at 5.45. Before the banquet the leaders for next year's clubs will be elected. The officers of the management will be chosen before the end of this week. G. A. W. Smith '21, and H. N. Landis '21 are the candidates for general manager; the publicity manager and treasurer will be elected from the following men: F. Raymond, T. J. Homer, Jr., R. C. Rundlett and F. N. Dillon.

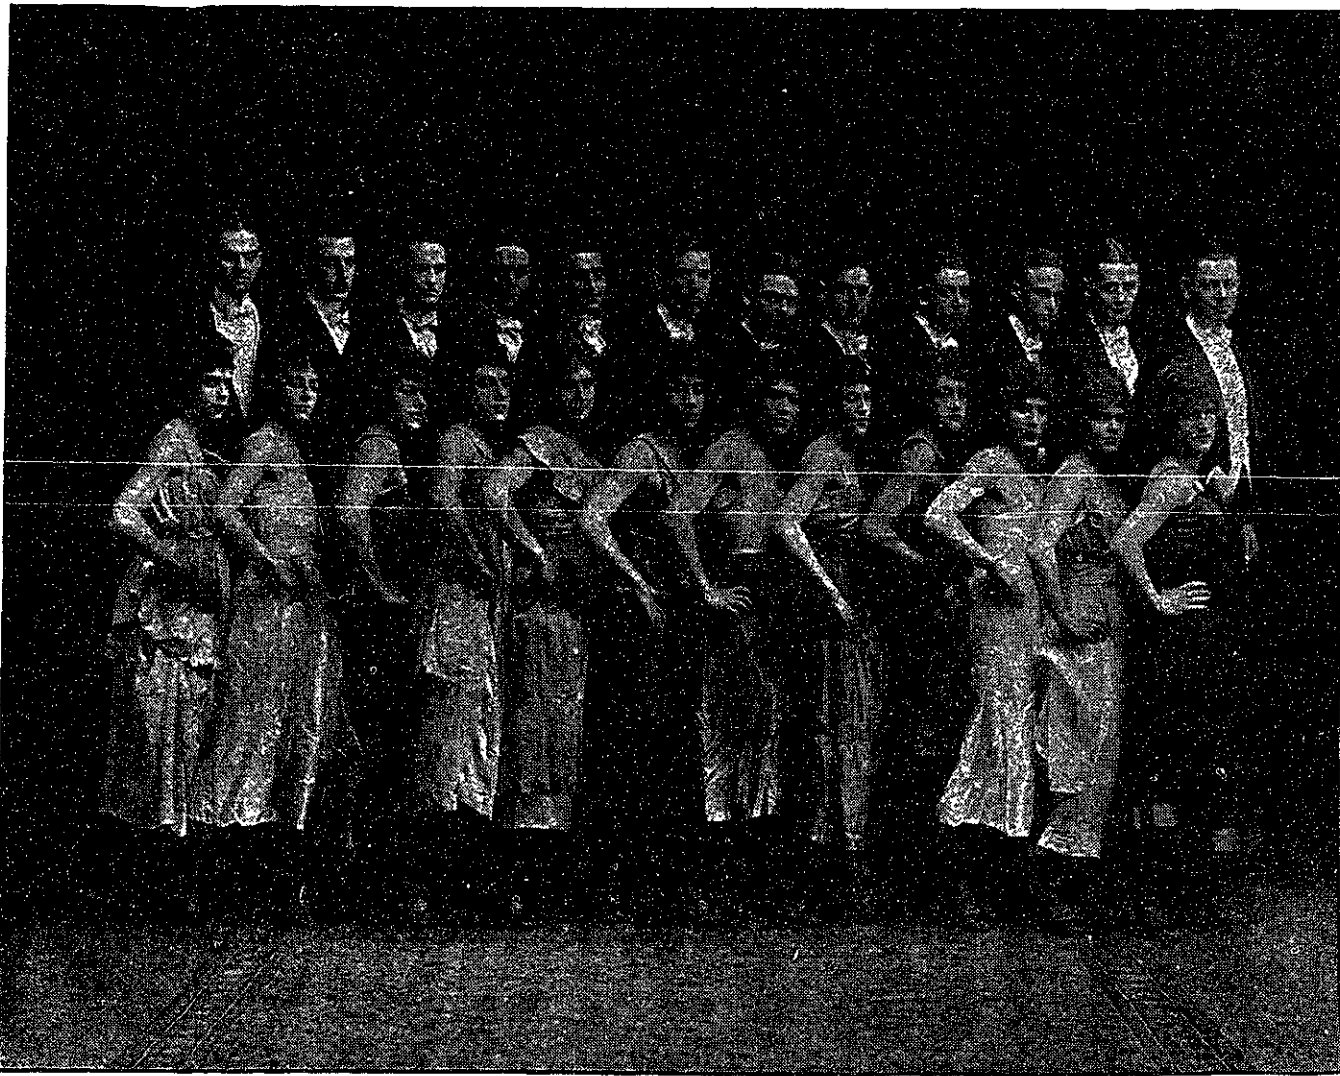

The banquet marks the close of an unusual season. Due to uncertainty caused by the war, Manager Smith could not arrange for the usual trip, but had to confine the engagements to local concerts, which proved to be very successful. In addition to the annual concert at the Franklin Square House and the Spring Concert and Dance at the Hotel Somerset, there were concerts at Acton, Mass., Simmons College and Lynn.

The officers for the past season were: General Manager, G. A. W. Smith; Treasurer, H. N. Landis. The leaders of the Clubs: Glee Club, Herbert Berry; Mandolin Club, W. T. Hedlund; Kappa Club, R. M. Blood.

It is understood that certain undergraduate members of Technology, have, during the past two years, won athletic insignia which for one reason or another have never been awarded them through official action of the Advisory Council. The undersigned requests that wherever such is the case, the insignia winner will write to the undersigned, stating his name, the time, place, performance which secured the award, and with this data in hand the undersigned will see that all deficiencies are promptly corrected. Statements should be sent to A. W. Rowe, 295 Commonwealth Avenue, Boston.

(Signed) H. J. DAUBE,
Sec. M. I. T. A. A.

TECH SHOW CHORUS IS CHOSEN

Men:—Zoller, DeStaebler, Jenson, Jackson, Robbins, Greenewalt, Dutton, Barry, Leland, Anderson, Harlin, Davis.
Girls:—Saunders, Kudlich, Brown, Whit ten, Hawes, A. Bradley, Carven, Lewis, Sherbrooke, Burnham, Hoops, R. Bradley

AERO LAB VISITED

Model Airplanes Seen Under Test in Wind Tunnel

A multitude of aeronautical enthusiasts, many more than the expected twenty, wended their way yesterday afternoon to the Institute wind tunnel, this being the first trip taken to that part of the Institute under the auspices of the Technology Aero Club. According to reports, much enthusiasm was shown by the participants in this rather unique event, and it is expected that the second trip which is to take place this afternoon will be even better attended than the first. A third trip will be held tomorrow, and if necessary, a fourth on Friday. Sign-ups for these three afternoons greatly exceeded the limit of sixty, but the management of the society will make it possible for every student who is interested to visit the laboratory by extending the trips over a sufficient number of days to accommodate all. Owing to the fact that this issue of THE TECH went to press while the first trip was in progress, a detailed account of the wind tunnel and

PRESIDENT MACLAURIN ENTERTAINS STUDENTS

Local Talent Performs For Electricals

Although the rain poured heavily last Saturday evening it failed to dampen the spirit of the entertainment given by President and Mrs. MacLaurin to the members of courses VI, IV, XIV, XV² and a goodly delegation from Cleofan. The Shadow Play, which was the principal entertainment of the evening, was enacted by talent from among the guests, while Professor Rogers read the theme of the play. The story dealt with the experiences of a Junior freshman, who, finding his work at the Institute too disconcerting, was asked to leave. In later years, a successful man, we find him sentencing his son to a similar fate.

After the play the guests were entertained with several musical numbers which were also given by the more talented members of the guests. As a conclusion to the evening's festivities the guests retired to the dining room where they were served with refreshments consisting of frozen pudding and cakes.

TENNIS TOURNAMENT LAGS

The first round of the tennis tournament has been played and several men have showed the spirit wanted by the management in playing the second round. Manager Boyden would like all of the matches played off as soon as possible so as to be sure to get time to run off the finals before the exciting and hectic days of exams. Now that the courts outside of Walker are open to student use, the matches can be played there as well as at Jarvis Field. The winner of this tournament will be awarded a tT.

SWIMMING TEAMS AWARDED INSIGNIA AT BANQUET

C. W. Scranton '21 Elected Captain of Next Year's Varsity

At the second annual banquet of the M. I. T. Swimming Teams held in Walker Memorial Thursday evening, Charles Wallace Scranton '21 was elected to captain the next year's Varsity Team. Scranton is the only two T man in the Institute having received the T in both track and swimming. He was one of the heaviest point winners for the last season and swam both on the Relay and in the 50-yd. dash.

Richard McKay was re-appointed manager.

Mr. Paul D. Sheeline '19, manager of last year's Varsity was toast-master for the banquet and the speakers of the evening were Dean Burton, Dr. Rockwell and Mr. Worcester of the Alumni Advisory Council on Athletics, Coach "Alec" Sutherland, Mr. Stewart McCullough (plunging coach), Captain Untersee, Manager McKay and P. N. Anderson, Manager of track.

Dean Burton spoke at length and in part he said that he hoped that swimming would eventually be substituted entirely for calisthenics and also be made a requirement for the Institute degrees, when the Institute would be fortunate enough to have a tank of its own. He also mentioned the vital need of a tank at Technology. The Institute team although one of the best college teams in the country and having met but one defeat in five years has been forced to practice at the Boston Y. M. C. A. at a considerable distance from the Institute.

Mr. Worcester, chairman of the Advisory Council awarded the T to C. W. Scranton '21, M. Untersee '19 and C. D. Greene '21. He awarded the sT to M. Untersee '19, C. D. Greene '21, C. W.

NEW PARTS IN SHOW

Final Cuts in Chorus Are Announced

Tech Show is now nearing completion. There have been a few changes made and two new characters added. The ballet is rehearsing frequently and all the departments are working hard to make Tech Show 1919 the best ever.

The management has a surprise to offer in the form of two new characters. These are "Ethelinda" and "Eri." "Ethelinda" is a cook at the girls camp. She has a pronounced "down east" accent and wears very eccentric clothes. The part is to be played by Alexander D. Harvey '21. "Eri" is Dick Warren's chauffeur and is a typical negro specimen, superstitions and all. John A. Philbrick '20 is to play this part. These two characters were introduced by Mr. Haviland for low comedy relief and add many humorous lines to the Show.

The ballet has a very good start this year. Miss Virginia Tanner is supervising the production. She has staged many successful ballets in the past and, under her direction, an excellent corps of dancers is assured.

The list of the musical numbers will be announced in the next issue of THE TECH. The management is certain that that numbers this year will receive an unusual ovation because they are exceptionally peppy.

Tickets for the Northampton performances of Tech Show on Memorial Day, Friday, May 30th may be purchased from E. P. Whitehead, treasurer, at the Show Office beginning Thursday afternoon at 5 p. m. and every afternoon following at that time. There is a limited number of tickets available. Tickets for the Boston and Somerville performances may be had by filling out cards which will be mailed.

There is to be a combined rehearsal of the cast and chorus in a theatre next Sunday. All the details of this rehearsal will be posted on bulletin boards later in the week and these should be looked for and carefully noted.

The final Tech Show chorus is as follows:

Girls—A. Hilsley Bradley '21, Philip S. Brown '20, C. Coleman Carven '21, Walter M. Saunders '21, Laurence H. Burnham '20, Munroe C. Hawes '21, Robert I. Bradley '20, William A. Hoops '22, Haas C. Kudlich '22, Ralph R.

TRACK TEAM GOES DOWN TO DEFEAT

Dartmouth Men Prove Too Strong for Depleted Institute Team—Quarter Mile Run Is The Sensational Event

MURRAY STARS FOR GREEN

Technology's varsity track team went down to defeat before the strong Dartmouth aggregation on Saturday at an over to the tune of 85 1-3 to 40 2-3. Four of Frank Hanaly's men were out of the competition for one reason or another and it is certain from the times taken and distances recored in various events that the Cardinal and Gray would have made a very much better showing had these men been able to compete. In the 440 and 880 yard runs, Bawden could have easily taken first honors, while in the hammer throw, Dandrow would have had an easy time. Nagel has done 12 feet in the pole vault and might have tied for first place at least. Dartmouth was without the aid of Cuddy Murphy in the weights.

Dartmouth was able to capture 10 first places, and tie for first in two other events. The weather conditions were much against fast competition; a cold, stiff wind sweeping across the athletic field making the running difficult in the dashes.

Wingate Rollins was Technology's high scorer of the day. Rollins captured first place in the 100-yard dash and was barely beaten out in the 220 by Davis of Dartmouth who finished well after a poor start. Rollins placed second in the shot put as well.

The 120 yard high hurdles was taken by Weed of Dartmouth with Scranton of Technology a close second. Purcell and Stone of Technology finished second and third respectively to Crathern of Dartmouth in the one mile event.

The 440 yard dash was perhaps the most sensational event of the meet. Downey, Technology, lead the field far into the home stretch when from out of the men lagging behind, Captain J. M. Murray of Dartmouth broke loose and closed the gap on Downey. The two men fought neck and neck to the goal

PROM TICKETS WILL BE PLACED ON SALE FRIDAY

Tickets, preliminary dance orders, and invitations for the Junior Prom will be given out on Friday between the hours of one and two in the main lobby. Men holding sign-ups can obtain these upon the payment of five dollars. The Prom as has been stated before will be held at the Copley Plaza Hotel, and will last from nine until four. There will be twenty-four dances and four extras. Bert Lowe's orchestra of Spring Concert fame will furnish the music. He has gotten the best of all the latest music, and different pieces will be played for encores. Favors will be given to both ladies and gentlemen. The supper menu has not fully been decided upon yet. Supper tickets for the chaperons can be obtained from J. C. Nash '20. The Prom Committee has asked the following ladies to act as matrons: Mrs. Richard C. MacLaurin, Mrs. Calvin Coolidge, Mrs. Henry Pearson, Mrs. Albert F. Bemis, and the following as patronesses: Mrs. Winfred C. Akers, Mrs. Alfred E. Burton, Mrs. Davis R. Dewey, Mrs. Frederic A. Geo, Mrs. George A. Coffen, Mrs. Allyne Merrill, Mrs. Edward F. Miller, Mrs. James W. M. Nash, Mrs. Julius Roman, Mrs. Charles L. Whitaker.

CALENDAR

Wednesday May 14

2.00—Meeting for trip to Wind Tunnel in Main Lobby.

5.00—M. I. T. Orchestra rehearsal in Walker Memorial.

Thursday, May 15.

2.00—Meeting for trip to Wind Tunnel in Main Lobby.

6.00—Military movies for Sophomore W. O. T. C. in Walker Memorial.

Saturday, May 17

8.15—Cosmopolitan Club dance - in Walker Memorial.
