DARTMOUTH WINS TRACK MEET

(Continued from page 1)

where they broke the tape at the same time and the judges pronounced a dead heat.

The two-mile run provided a somewhat similar ending but the result was more favorable to the Cambridge team. Avery of Dartmouth was an easy leader of the field of runners up to the last lap when he gave out completely and was overtaken by his teammate Bolles. In the final dash to the line, Murray of Technology leaped ahead of the runners, climbed into the lead and was winner over Bolles by eight yards.

Dartmouth's greatest scoring came in the field events where the lack of Technology's stars was felt. Every field event was carried by the Green, and Technology was lucky to place in the pole vault when Waiton and Fletcher were tied for third honor.

The high jump was a tie for first place between Davis and Meade of Dartmouth and Allen of Technology, at 5 feet 8 inches. Dartmouth took two places each in the broad jump, in the discus throw and in the hammer throw, 129 feet.

The summary:
One hundred-yard dash—Won by Rollins, Technology; second, J. C. Davis, Dartmouth; third, Spitz, Technology. Time—10 2-5.

One hundred and twenty-yard high hurdles—Won by Weed, Dartmouth; second, Seranton, Technology, third, Anderson, Dartmouth. Time—16 2-5.

One mile run—Won by Crathern, Dartmouth; second, Purcell, Technology; third, Stone, Technology. Time—44 4-5.

Four hundred and forty-yard run—Dead heat between Murray, Dartmouth and Downey, Technology; third, Carto, Dartmouth. Time—52 3-5.

Two hundred and twenty-yard dash—Won by J. C. Davis, Dartmouth; second, Rollins, Technology; third, Spitz, Technology. Time—23 1-5.

Eight hundred and eighty-yard run—Won by McFoughran, Dartmouth; second, Coakley, Dartmouth; third, Bardes,

Technology. Time—2m. 3 3-5s.

Two-mile run—Won by Murray, Technology; second, Bolles, Dartmouth; third, Avery, Dartmouth. Time—10m. 17 3-5s.

Shot put—Won by Wallace, Dartmouth; second, Rollins, Technology; third, Cummings, Dartmouth. Distance—38ft. 11 1-2in.

Hammer throw—Won by Weld, Dartmouth; second, Bevan, Dartmouth; third, Raymond, M. I. T. Distance—129 ft.

Discus throw—Won by Weld, Dartmouth; second, Eckberg, Dartmouth; third, Hayes, Technology. Distance—110ft. 11in.

High jump—L. S. Davis, Dartmouth; Meade, Dartmouth, and Allen, Technology, tied for first place. Height—5ft. 8 in.

Pole vault—Won by Myers, Dartmouth; second, Libby, Dartmouth; third, tie between Fisher, Dartmouth, Walton, Technology, and Fletcher, Technology. Height—12ft.

Broad jump—Won by Whittier, Dartmouth; second, Prentis, Dartmouth; third, Dipple, Technology. Distance, 20 ft. 8 1-4in.

ARTILLERY CAMP IN SUMMER

(Continued from page 1)

keeps up his military work—that is, throughout his third and fourth year at the Institute.

The advanced work in the R. O. T. C. will be entirely a matter of study, lecture and recitation. No uniforms will be worn, no guard duty done, and there will not be any military formations of any kind. The aim will be to make the R. O. T. C. work come up to the same high grade as is the work in other departments of the Institute, and classes will be conducted in exactly the same manner. All the application of the principles taught during the academic year will be given in the summer camps. During the summer camps on military reservations, the student will be in uniform, will attend military formations, and will be a soldier twenty-four hours per day.

The work of this summer will embrace all sorts of artillery firing; with field guns, seacoast guns, tractor-mounted guns, anti-aircraft guns, trench mortars, and railway guns up to 14 inches in caliber, for firing, and balloons of every type and airplanes for observing fire. The Coast Artillery Training Center possesses a laboratory unequalled elsewhere in the United States.

Students who satisfactorily pass this course will be awarded commissions in the Reserve Corps of the Army upon graduation from the Institute.

RIFLE CLUB NEARING END OF N. R. A. MATCHES

The total score for match nine was 956, the individual scores being as follows: R. H. Skinner '21, 196; J. R. Perkins, Jr. '20, 193. C. G. Keartul '22, 191; Clark, 191; L. J. Powers, Jr. '22, 186.

DU PONT AMERICAN INDUSTRIES

DU-LITE

FOR MILL & FACTORY INTERIORS

Today much attention is given to the sanitary working conditions in mills and factories, for thus can the highest degree of efficiency be obtained.

The use of Harrison's Du-Lite will ensure sanitation as the high gloss finish may be readily cleaned, and in addition such a surface makes possible the saving of artificial light through perfect light refraction.

This product is not a cold water paint or kalsomine, but a durable paint that is not affected by steam or fumes, and will not chip or flake off.

Write for booklet on Du-Lite, describing this product which means increased efficiency.

Make your old car new with Vitrolac Auto Finish. Write for booklet "The Old Car and The New."
