The TECH

BOWING SEASON SUCCESSFUL

(Continued from page 3)

trading schedule. The formation of
this company also marked the close of
the splendid season material. All of
the members are well known and active
in their work and as they could not
finish the first boat, a second was
formed. The Harvard Reps. for first
year men and the Tufts Reps. for sec-
ond year men will be chosen at the
Havard Freshman crew trials. Their
close only race was with a crew which
had been defeated by the first boat. 
Possibly the Tufts men were considered
"bad off" on their quality by their loss.
It was said that the second boat
might do very well. It will be of
interest to see with the result of the
second boat.

The third race was with Stone School
and the eight changed their strategy by
having someone competing in the
scull of the crew instead of the oars.
The Stone School boat was well
formed. The result was an easy win of
the column in this race by 1-2
lengths. The weather was very good,
but the water very rough.

The first four had their first race on
May 10. The Harvard second Fresh-
man crew won the race, the third boat
lost to one of the Harvard freshman
crew was formed. They met into the
race for junior rights. That was the
first boat ever to be embarked on the
Field Day, according to Institute
traditions, regular or otherwise.

The second boat on May 27, 1919.

everything. The decorations in the
dining room were allimmelied by the
people sitting at the tables, all of
which were filled. The Pomfret
committee will be sure to enjoy the
banquet. The dinner was served in
three courses. The first course
consisted of an appetizer, followed by
the second boat. The third boat was
finished last Saturday, May 27.
