

VOODOO APPEARS AT RUSH

(Continued from page 1)

Twenty-five hundred copies of the Voodoo were printed this issue, making it rank third largest among the college monthlies in this country. This record at the age of four months promises well for the future.

During the next three weeks the October Voodoo will be in preparation, and the management plans to have this number ready early in the fall term. All contributions for the fall issue should be left at the Voodoo office as soon as possible. Election of the Board and Staff for next year will be made about the middle of June.

PLAN NAVAL R. O. T. C.

Every university and college in the country will be given an opportunity to cooperate with the Navy Department in building up a naval reserve officer corps under a plan now being developed by Assistant Secretary of the Navy Roosevelt. It is planned to commission college men as ensigns in a great permanent reserve sea force. A four-year course in nautical subjects, augmented by several months of post-graduate work at the naval academy, will be offered.

The plan is to enroll college freshmen in the course. For the first year the Navy Department recommends a course of study along naval lines in connection with the regular college work, including physical training. The work would be under the direct supervision of the college authorities and the commandant of the naval district. At the end of the freshman term members of the training corps would go to a naval training camp for six or eight weeks, where they would be given a rigid course of practical instruction in marine subjects, military drill and physical exercises. They would be furnished with clothing, food and lodging and nominal pay during that period. Advanced college courses would include navigation, higher mathematics, astronomy, international law and naval strategy. At the end of the second and third years the embryo officers would be taken aboard warships for a cruise of six or eight weeks.

Upon graduation, members of the corps would be sent to the Naval Academy for two months of post-graduate work along general lines, the Government paying all expenses and a salary. That course completed, the successful candidates would be commissioned as ensigns in the reserve and sent to civil life under no obligation to the Government except a pledge to serve as officers in event of emergency and to keep in touch with naval developments.

It is planned to send the training squadrons abroad each summer, so the students may have an opportunity to study foreign navies. During these cruises, the reservists who would be taken into the reserve as seamen, second class, would be given an opportunity to advance through the various non-commissioned grades and would be paid accordingly.

TECHNOLOGY TENNIS TEAM DEFEATED AT DARTMOUTH

The strong Dartmouth tennis team defeated the New England champions four matches out of six at Hanover Saturday afternoon in a close and well-played match. Dartmouth, the runner up in the New England Tournament, came back strong, winning both matches of the doubles and two of the singles. Captain Broockmann '20 was forced to exert himself to win from Larmon of Dartmouth, 6-1, 3-6, 6-4, in the singles. McWane '21 had little difficulty in defeating Farnham in straight sets, by the score of 6-3, 6-1. Barron '20 fell before the consistent playing of Carlton 6-4, 6-2, in the singles and, paired with Broockmann, was defeated in the doubles by Carlton and Larmon in two exciting sets, 6-4, 7-5. West '21 was beaten in the singles by Ranny, 7-5, 6-3. The second doubles match went to Dartmouth when Farnham and Ranny managed to win out 4-6, 6-4, 6-4, after a hard struggle with West '21 and McWane '21.
