SECOND CLASS
CLEOFAN CLASS
Do you know the very best kind of dog in the world? Yes, I do. The only thing that makes them so is their owner. Dogs are not only loyal and loving, but they are also incredibly intelligent. They are the true masters of their domain, and we should always respect them for their intelligence.

We have a new puppy in our family, and it truly is the best kind of dog. It is intelligent, loyal, and loving. I am so grateful to have such a wonderful companion in my life.

Recently, I had the opportunity to interact with a group of canine experts, and they confirmed what I already knew. Dogs are amazing creatures, and they deserve our respect and admiration.

Let's not forget the importance of our canine friends. They are not just pets, but they are also our companions, our loyal friends, and our source of joy. Let's always remember to treat them with kindness and respect.

BIG EVENTS PLANNED FOR NEXT YEAR:

COURSE OF BANQUETS
Civil Engineering Society Holds
Last Meeting of Year

The Civil Engineering Society closed its true year with a banquet at its annual meeting, Thursday evening, May 19 in the Alumni Club room of the A.C.D. building.

The banquet was attended by a large number of alumni and students, and the program included a variety of musical and dramatic performances. The main event of the evening was the presentation of plaques to the winners of the annual design competition.

The winners were:

1. The team consisting of J. H. B. Smith, R. E. Johnson, and R. E. Johnson, received a plaque for their work on the design of a bridge.
2. The team consisting of J. H. B. Smith, R. E. Johnson, and R. E. Johnson, received a plaque for their work on the design of a dam.
3. The team consisting of J. H. B. Smith, R. E. Johnson, and R. E. Johnson, received a plaque for their work on the design of a tunnel.

The winners were congratulated and presented with plaques by the president of the Civil Engineering Society, who expressed his appreciation for their hard work and dedication.

The banquet was a great success, and the attendees were all enthusiastic about the future of the Civil Engineering Society.

PROPOSED CHANGES

Among a recently discovered set of changes in the rules for the Student Senate, the following are the most notable:

1. The Senate will be required to hold regular meetings every second Monday of the month.
2. The Senate will be required to have a quorum of at least 10 members present to conduct business.
3. The Senate will be required to hold a special meeting if requested by the president of the Student Body.

These changes were proposed to the Senate by the Department of Student Affairs, and are currently under consideration.

The Senate will vote on these changes at its next meeting, and the results will be announced in the next issue of the Student Newsletter.
