

TAKES CHARGE OF JUNIOR PLATTSBURG

Professor Russell Assumes
Duties As President and Gen-
eral Supervisor — Professor
Park Is Technical Director

ENROLLMENT TOTALS 600

Prof. George E. Russell of the Institute, president of the Junior Plattsburg Training Camp at Long Point, on Lake Champlain, has arrived at the camp for the season. In addition to his duties as president, Prof. Russell this year will have general supervision of the camp. Others on the staff of instructors at the camp include Rear Admiral George B. Ransom, U. S. N., retired, who was with Admiral Dewey in the battle of Manila Bay, and who will be in command of the naval division of the camp; Lieut. Col. Donald M. McRea, U. S. A., a veteran of the European war, who will command the military division; Maj. Harvey M. Hobbs, U. S. A., one of the instructors at the Military Academy, West Point; John P. Davies, superintendent of the Air Service Division, who was a member of the American night bombing forces in France; Prof. Charles Francis Park, of the Institute, who will be the director of technical training; Oscar C. Gallagher, headmaster of the West Roxbury High School, Boston, who will be director of academic training; O. F. Monahan, physical director at the Hotchkiss School, as athletic instructor; Thomas W. Baker, major and commandant at the Mercersburg Academy, an instructor of military calisthenics, and James C. Cooley of the Meadowbrook and Aiken Polo Clubs, as instructor in horsemanship, and polo.

George P. Lockyear has been engaged as steward of the camp and will be in charge of the Visitors' Club.

Maj. Gen. John F. O'Ryan, commander of the 27th Division will direct the instruction in the Swiss method of military and physical training. Another new feature of the camp will be the air service division, for which six Curtiss flying machines have been obtained, five of which will be used for land flying and the sixth, a flying boat, will be used for flights over Lake Champlain. This division will be under the supervision of Mr. Davies and a staff of trained military and naval aviators will do the handling of the machines in the air, the student members of the camp going up as observers.

The camp will open July 1 and continue until Aug. 28. The membership of the camp is limited to 600, and nearly this number have been enrolled.

CLASS OF 1911 HOLDS REUNION

The Class of 1911 intends to hold an After-the-War reunion tonight in the Grill Room of Walker Memorial, as there will be no formal Commencement with attendant Alumni activities this year. The dinner will be served at six o'clock. The returning service en will be entertained and speeches will be made by various prominent members of the class.

PROFESSOR HUGHES HONORED

Professor Hector Hughes of Harvard, formerly professor of Highway Engineering at Technology was elected an honorary member of the Harvard Chapter of Phi Beta Kappa at a business meeting of the chapter Monday, in connection with the Harvard commencement exercises.

Professor Hughes was at the Institute for several years and only severed his connection the past year because of the decision of the supreme court in the McKay case, which declared any merger between Harvard and Technology illegal. Professor Hughes' place here has been taken by Professor Arthur H. Blanchard of Columbia University.

BALLET PICTURES ARE READY

All men who ordered Ballet Pictures will please call for them today between 12.30 and 1.30 at the Show office. If you can not come, send some one in your place.

TECH SHOW 1919.

AIR SERVICE RECRUITING. UNIT STOPS AT TECHNOLOGY

Cambridge and Medford were visited this week by the unique recruiting outfit of the Air Service Recruiting Department, which has attracted much attention in Boston since its arrival Friday night. The outfit, under the command of Lieut. Col. John D. Carmody, consists of 28 men, a band of 12 pieces, six trucks and three trailers, a photographic unit and a fast French scout biplane. First Lieut. A. F. Mackin is assistant to Col. Carmody.

The outfit, which is on a tour of New England to encourage recruiting in the air service by demonstration of the nature of the work that recruits are required to do, is making its headquarters at Technology in Cambridge. It took part in the general recruiting scheme on the Common Monday, participated in the Charlestown June 17 celebration Tuesday, and left for Maine today.

Lieut. Col. Carmody reports gratifying success on the tour since leaving Mineola, L. I. on May 22. From that point the outfit traveled through Rhode Island and Connecticut. It has visited Springfield, Worcester, Fall River, New Bedford, Taunton and Quincy.

Particularly interesting to the hundreds who are attracted by the outfit are the biplane, the photographic unit and the electric plant. The biplane, like the 28 men who accompany the outfit, has seen service overseas. The photographic unit, mounted on a truck and trailer, carries its own dark room and printing apparatus, and the electric plant comprises a 1500-watt power plant and 7400-watt searchlights.

On leaving Boston the recruiting outfit starts for its northern objective, Bangor, Me., by way of Lowell, Haverhill, New Hampshire and Maine cities. It doubles back to Augusta and thence runs across country to Vermont and New York state.

WILL START UNIT

Major Wolfe, U. S. A. Will Take
Charge of Engineer Corps

Plans are now under way for the establishment of an Engineer unit of the R. O. T. C. at the Institute. Major Walter McI. Wolfe, Engineers, U. S. A., has been sent here by the Government and will be in charge of arranging the course for this branch of the Military Department at Technology.

It is hoped that technical equipment will arrive before fall, so that the unit may be started with the new term. Men in courses II, II, III-1 and 3, IV, VI, XI, and XV-1 and 2 will be eligible for the advanced course in their junior year. Although the details have not yet been worked out, it is probable that attendance at the surveying camp during the Sophomore year and at an Engineers camp during the following year will be all the summer work required. During the Junior and Senior years about two hours a week will be devoted to military studies and practical work; military credit being given for appropriate subjects in the courses. Allowance, similar to that in the other R. O. T. C. units at the Institute for subsistence and commutation, will be made to the men in this branch.

The practical work will consist in the erection of pontoon and spar bridges, the operation of searchlights, and other military feats requiring technically trained men. During the first two years at the Institute, the men will be trained along general military lines in preparation for the advanced courses. On completing the advanced course men will be eligible for engineers reserve commissions in the Army.

AMBULANCE PLANE MAKES A 118 MILE FLIGHT TO ATLANTIC CITY

The first hospital ambulance airplane bearing a medical man to reach the convention of the American Medical Association arrived at Atlantic City Friday, June 13. The plane flew from Hazelhurst Field, Mineola, L. I., to the Atlantic Airport, making the trip of 118 miles in 80 minutes. The trip was for the practical demonstration of the facilities of the army medical force.

INSTITUTE COMMITTEE ENDS ITS BUSINESS FOR THIS YEAR

Corporation XV is Allowed to be Represented on the Committee

The Institute Committee has finished its work for the current school year, and at the continuation of the previous meeting which was held last Thursday afternoon, the remaining officers were elected, and the year's business was over.

The nominating committee which had been appointed at the previous meeting to bring in a list of names for the vacant offices made their report at the start of the meeting and the following men were elected. The treasurer is to be W. L. Coiren '20, George Burt '20 is chairman of the finance committee, and Homer V. Howes '20 was chosen undergraduate treasurer. The budget committee is M. S. Burroughs '20 and E. F. Stockwell '21, and the election of these last filled all the offices for the ensuing year.

Corporation XV petitioned for a seat on the Institute Committee and this was granted them. This was the last business aside from finishing up a question left hanging over from the last meeting, and when this was settled the meeting closed and the Institute Committee ended a difficult season.

TECHNIQUE 1921 WILL APPEAR IN NEW FORM

Radical Changes From Former
Copies of the Year Book Are
Expected — Many Sections
Will Be Changed

ART COMPETITION REOPENS

The last meeting of Technique 1921 for this year has been held, and the work on the new book has started in earnest. All the departments except one have their quota of editors and assistants, many of the details of the book itself have been definitely decided on, and it may well be said that this Technique is already so far advanced that it is practically a thing of the past.

This last meeting, which was held Friday night, had been scheduled to be the big meeting for this year, and reports state that it was. Before the plans for the various departments were gone over, the last election, that of associate photographic editor was held. W. G. Loesch '21 was chosen to fill this office, and the board being practically all chosen, the business of the book itself and the various departments of

R. WINDISCH '21
Photographic Editor

(Continued on Page 2)

TECHNIQUE 1921

All men who wish to try out for the Technique 1921 Art Department, will please meet in the Technique office today at 5.15. A competition will be started from which two associate art editors are to be picked.

TECH SHOW ELECTS MANAGING STAFF FOR COMING YEAR

Percy Bugbee '20 Is Chosen For General Manager Of
Next Performance—Call Issued For Scenarios
and Lyrics For Annual Musical Comedy

COMPETITIONS OPEN IN FALL

TECH SHOW 1920 is already beginning its preparation for the coming year. At a recent meeting of the staff, the new management was chosen with Percy Bugbee '20 as General Manager. Following this the next year's policy was outlined. Competitions for the various departments of the Show will open as usual in the fall. A call has been issued for scenarios and lyrics and it is hoped that men will work on these during the summer. The show will be a musical comedy as usual, but the management expects to include several new features.

The management of Tech Show 1920 is as follows:—General Manager, Percy Bugbee, '20; Business Manager, Richard J. Spitz, '21; Treasurer, Herbert W. Smith, '21; Stage Manager, Stuart Nixon, '21; Publicity Manager, John G. Lee, '21.

Percy Bugbee '20, who is a member of Masque, was assistant business manager of the Show for two years, and business manager this year. Aside from his Show work Bugbee pulled on the tug-of-war team his first two years, was treasurer of Corporation XV during his Junior year, and has been elected a director of Corporation XV and a member of the 1920 Class Executive Committee for his Senior year.

Richard J. Spitz '21, the business manager, has served as an assistant business manager for two years past. Spitz is also business manager of Voodoo, a member of the Technique 1921 Electoral Committee, the Institute Committee, and Masque.

WINS TOURNAMENT

J. R. Elliott, Jr. '22 Wins Tennis
Championship

J. R. Elliott, Jr. '22, of Portsmouth, N. H., won the tennis championship Tuesday afternoon by defeating W. R. Scott '22, three straight sets, 6-4, 6-0, 9-7, in a fast and well-played match. Both Scott and Elliott have starred on the freshman tennis team throughout the season, and both were in fine form.

The first two sets were Elliott's from the first, but in the third set Scott steadied down, and kept the score wavering for a long time. Twice he was within a point of winning the set, but Elliott's unusual steadiness tied the score, and the last game was won only after long uncertainty.

The feature of Elliott's game were his judgment and his ability to place the ball, keeping his opponent well back in his court on the defensive. Elliott played last year on the Phillips Exeter Academy team, and has continued this year to make a fine record, having been defeated only by Capt. Robinson of the strong Harvard second team, by scores of 4-6 and 5-7.

CORPORATION APPROVES THE PROMOTIONS IN THE FACULTY

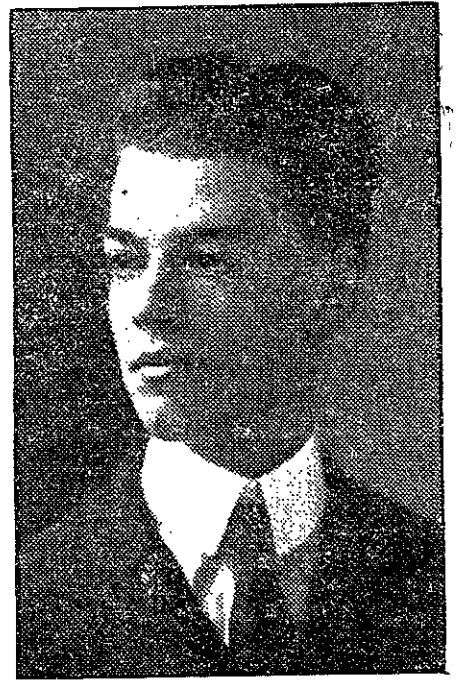

The Corporation, at its meeting held last week, approved the following promotions to the positions of Professor, Associate Professor, Assistant Professor, and Assistant.

To the grade of Professor—Associate Professor C. W. Doten to Professor of Political Economy.

To the grade of Associate Professor—Asst. Prof. H. C. Bradley to Assoc. Prof. of Drawing, and Descriptive Geometry; Asst. Prof. F. E. Armstrong to Assoc. Prof. of Political Economy. Asst. Prof. C. E. Locke to Assoc. Prof. of Mining and Ore Dressing. Asst. Prof. N. C. Page to Assoc. Prof. of Electricity.

To the grade of Assistant Professor—Instructor J. B. Babcock, Asst. Prof. of Railroad Engineering. Instructor S. A. Breed to Asst. Prof. of Mechanical Drawing and Descriptive Geometry. Instructor L. F. Hamilton to Asst. Prof. of Analytical Chemistry. Instructor H. B. Luther to Asst. Prof. of Civil Engineering. Instructor C. S. Robinson to Asst. Prof. of Industrial Chemistry. Instructor R. H. Smith to Asst. Prof. of Mechanical Engineering. Instructor C. E. Turner to Asst. Prof. of Biology and Public Health. Instructor A. F. Holmes to Asst. Prof. of Theoretical and Applied Mechanics.

To the grade of Instructor—Assistant C. H. G. Gray to Instructor in Electrical Engineering. Assistant F. C. Hoyt to Instructor in Physics. Assistant Max Knobel to Instructor in Physics. Assistant C. E. Lansil to Instructor in Electrical Engineering. Assistant A. L. Russell to Instructor in Electrical Engineering. Assistant C. E. Tucker to Instructor in Electrical Engineering. Assistant E. F. Richardson to Instructor in Analytical Chemistry. Assistant S. G. Simpson to Instructor in Analytical Chemistry. Assistant P. O. Yeaton to Instructor in Mechanical Engineering.

PERCY BUGBEE '20
General Manager

Herbert W. Smith, '21, the recently elected treasurer has been in the business department of the Show for two years and is also a member of Masque.

Stuart Nixon '21, who has been chosen stage manager, has devoted all his time to the Show for the past two years as
