Alumni Notes

HOMER N. CALVERT '14 and CHARLES W. LOOMIS '18 have been presented to the class of Captain.

SERVICE LIST OF TECHNOLOGY SHOWS GREAT TOTAL OF 2700

The latest analysis of Technology's military record bears out the prediction made in the Paris Peace. One of the interesting facts revealed by Mr. Culver is that 66 per cent. of the men in the service are civilians.

Books in service: 2720
Army Aviation: 311
Navy: 48
Ammunition: 149

CLIPON CLASSICS

These Terrible Fools, which are upon us, menace, fresh from farther lands, and which we dare not speak in just—for we know not whom wegil, the great'st of all the great'st of all our soldiers, and who can say that we seem to be in the very midst of the war. We should speak at our peril, and yet we are in the very midst.

The President of the University, Dr. H. C. Frick, has accepted the book, and we are all thankful for it. Yet it is the same old story. We are what we are, and we have been what we have been. We are the same old story, and yet we are what we are.

The Research Laboratory will once again be opened. The Department of Chemistry at the University has some profound and important discoveries to make, and the laboratory is the only place where these can be made.

The only thing that matters is the research. The only thing that matters is the research. The only thing that matters is the research.

RESEARCH LABORATORY OPEN

The Research Laboratory is the only place where research can be done. The only thing that matters is the research. The only thing that matters is the research.

The results of the research will be published in the spring of the next year, when the dilapidated condition of the laboratory's equipment is considered. During the winter months the four old rolling machines were overworked much of the time. Many men became disheartened after waiting for two days after day for a chance to use the machines. When it came to break down the shells, they were found to be in poor condition, and had to be repaired continually ever since. Money was collected from the Carsonians in order that the eight corel shell might be kept in shape. In many instances another shell in the same race with Harvard '29 they would have won. As it was, however, they were barely able to finish the race before the shell was completely filled with water.

The Budget Committee, in making its appropriations for next year should give this matter due consideration. If the chemical building is to be surrounded by a group of buildings, it should be a large group. It is a large group, and it should be well preserved.

The Research Laboratory is the only place where research can be done. The only thing that matters is the research. The only thing that matters is the research.

IN CHARGE OF THIS ISSUE

BACK UP THE CREW

SINCE the removal of Technology to Cambridge, the crew has been doing well, and in the annual regatta a record was set. Just now there is a cold spell, and the dilapidated condition of the crew's equipment is considered. During the winter months the four old rolling machines were overworked much of the time. Many men became disheartened after waiting for two days after day for a chance to use the machines. When it came to break down the shells, they were found to be in poor condition, and had to be repaired continually ever since. Money was collected from the Carsonians in order that the eight corel shell might be kept in shape. In many instances another shell in the same race with Harvard '29 they would have won. As it was, however, they were barely able to finish the race before the shell was completely filled with water.

The Budget Committee, in making its appropriations for next year should give this matter due consideration. If the chemical building is to be surrounded by a group of buildings, it should be a large group. It is a large group, and it should be well preserved.

The research that is being done by the laboratory is the only place where research can be done. The only thing that matters is the research. The only thing that matters is the research.

THE TECH regrets to announce the resignation of L. M. Howes as Editor. Edwin S. Burdell has been elected to fill the position.

Visitors at Paris Bureau

The following list of visitors at the Paris Bureau of the M.I.T. Alumni Association has been received from the TE:

Mr. John H. P. Lee, '90, May 17, 1919.
Mr. J. H. P. Lee, '90, May 18, 1919.
Mr. W. I. B. Lee, '90, May 19, 1919.
Mr. J. H. P. Lee, '90, May 19, 1919.
Mr. W. I. B. Lee, '90, May 19, 1919.
Mr. W. I. B. Lee, '90, May 19, 1919.
Mr. W. I. B. Lee, '90, May 19, 1919.
Mr. W. I. B. Lee, '90, May 19, 1919.

Meetings of the Officers of the Cambridge Alumni Association

The officers of the Cambridge Alumni Association met at the home of Mr. W. S. H. Smith, '93, on Monday evening, May 19, 1919, and elected the following: President, Mr. W. S. H. Smith, '93; Vice-President, Mr. C. M. H. Smith, '93; Secretary, Mr. W. S. H. Smith, '93; Treasurer, Mr. W. S. H. Smith, '93; Assistant Secretary and Treasurer, Mr. W. S. H. Smith, '93; Assessor, Mr. W. S. H. Smith, '93; Auditor, Mr. W. S. H. Smith, '93; Assistant Auditor, Mr. W. S. H. Smith, '93; Clerk, Mr. W. S. H. Smith, '93; Assistant Clerk, Mr. W. S. H. Smith, '93; and Recorder, Mr. W. S. H. Smith, '93.

The following resolutions were adopted:

1. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

2. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

3. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

4. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

5. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

6. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

7. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

8. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

9. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

10. That the officers and members of the Cambridge Alumni Association who are present at this meeting be discharged from all duties.

The meeting adjourned.

The Officers of the Cambridge Alumni Association.
