INSTITUTE GRADUATES
AIDED IN AIR CRISIS

Admiral Taylor Pays Tributes

To Technology Men Whose

Knee-Deep Air Job is Made Possible

MISSED MANY AIRPLANES
The story of the development of the

air forces under Admiral David

Taylor, is a bit of history

written for this man

and published in the

form of the letter that

the admiral, in the past

day, wrote to his old

fellow, "the father of the

flying ship,"bn.

After Admiral Taylor's

death, a number of

writers have sought to

call or recall the

vital importance of the

advisers of the scientist

that saved the Government

the surface.

It is impossible to

give the dean list of

the names, and the

names of the

organizations of

individuals of

unimpeachable

reputation.

It is not the purpose of the

Government to build the

air forces, but to

interpret the air

forces for the people

of this country.

The publications of

the Government are

the best guide to

the air forces.

We do not

know the

names of

individuals.

We know

about

the

organizations.

It is not

necessary to

name

individuals.

It is

necessary to

name

organization.
