in order to utilize it in full. Despite the end of the war, we are not free from conflict. In the past and in the present, a study of the political and the physical, all human affairs have been left away with many ones being shown.

Thereby arises responsibility in the new increment of confidence which appears the people of the land. I urge the men of the college to give that first thought is the measure before us.

The total enrollment of the college is increased and reading here in Boston and the few ability of a few construction. It has been necessary to try men away on account of the lack of men.

TECHNOLOGY BRANCH

THE STORY OF THE TECHNOLOGY BRANCH

We are giving below a reprint of an article by Mr. Edwin C. Cook, who was the first Tech director of the board of directors of the Harvard Co-op Society. The article shows how the Tech branch was called into being as an interesting business enterprise.

It might be well to mention here that technology representation in the management of the business has been greatly increased in the past three years. For example, Davis P. Dewitt is now a stockholder. The following men from this society have been nominated as members of the directors, viz., Walter Humphries, S. Ford, Professor Henry F. and Mr. Homer V. In a word, the student body is also nominated to the office of secretary of the corporation.

Here is Major Cook's letter as it appeared in THE TECH on April 4, 1919.

THE TECHNOLOGY BRANCH

HARVARD CO-OPERATIVE SOCIETY

Last year the Technological course began to go into the subject of the Technology Cooperative Society, partly with a view to establishing a cooperative service at the new building. The new building, the Alumni Council, is going to make recommendations. The new building, the Alumni Council, is going to make recommendations.
