let's get standardized

there has been considerable inconvenience, as to anything of needless expense, caused by the non-uniformity of the paper used in the different departments of the institute. the paper, used in accounting, as well as in typewriting, is not of the same quality, and it is difficult to see why it has never aroused more interest in this country.

as technology, it should attract a large number of men, for it offers the opportunity to get some enjoyable exercise, of which mankind is always in need.

the following department does not accept a substitute for gymnasium week, but this is probable because the sport is not sufficiently well established to demand a substitute. the only reason why credit would be given for this work.

let's see progress being made toward the time when everybody will be training in some form of athletics.
