

## TECHNOLOGY LEADS IN RED CROSS DRIVE

Returns So Far Show Big Lead  
Over Other Colleges—Eight  
Fraternities Subscribe One  
Hundred Per Cent

### SPLENDID SUPPORT SHOWN

Final returns on the recent Red Cross Drive at the Institute show that Technology is ahead of all the colleges in the East. Eight fraternities have reported one hundred per cent subscribed and the total for the whole school is over \$1100. Considering the shortness of the time the showing is remarkable and this was only made possible by the able work of Kenneth Roman '20 and his staff of assistants.

Harvard has reported only \$400 to date but their campaign is lasting throughout this week in order to give them an opportunity to fill their quota. Radcliffe reported \$271 and Sargent \$215. Both these colleges subscribed through outside organizations and so their totals do not represent the true number. None of the other colleges have made returns yet but indications are that Technology has more than doubled any other institution in number of members enrolled.

The eight fraternities to report one hundred per cent enrollment are: Phi Beta Epsilon, Lambda Chi Alpha, Alpha Tau Omega, Sigma Alpha Epsilon, Kappa Sigma, Sigma Chi, Phi Sigma Kappa, and Phi Kappa. The showing of the different classes is as follows: Class of 1921 \$67; Class of 1922 \$68; Class of

## SWIMMERS PRACTICE

Good Material Gives Promise of  
Successful Year

Swimming got under way with a good start last Wednesday when a hundred and thirty men reported for the first varsity and freshman squads at the Boston Y. M. C. A. Boyce, a former Yale plunger, was in charge of the plunging, which showed some very good material. In this event Diecks '22, made 53 feet on his first attempt. Kendal '23, Kendal '21, and Starbird '22, and Rpan '21 also showed up well in this event. A. E. Wales '18, assisted Boyce in the plunging.

A goodly number of divers were present. W. B. Purinton '22 and R. H. Skinner '21, New England Diving Champion, coached this event. Of the freshmen Guernsey Hubbard showed up particularly well in the sprints. S. M. Biddell '22 and H. S. Colton '21 were also on hand with the usual speed. C. D. Scheeline '19, C. D. Greene '21, and W. H. Young '21, also assisted in this event. There are a large number of candidates for the swimming events, and most of these men will be retained on the squads.

More heavyweights are needed to plunge on both the varsity and freshman squads, and there is lots of room for good divers. Coach Alex Sutherland will meet those men who were unable to report Wednesday, on Friday at 5 o'clock at the Y. M. C. A.

The squad, which is to consist of from 75 to 100 men will be picked on November 26.

The meet with Yale which was to take place in Boston on February 14 has been cancelled and it is at present uncertain when the Yale meet will take place.

### THE TECH IS DELAYED

Some explanation is due the student body as to the unusual delay in publishing THE TECH last Wednesday. Owing to the holiday, the customary schedule of making up the paper was upset, and a new rotary press especially installed for our use, broke down, so that it was necessary to transfer the forms to the old presses.

## CHEMICAL SOCIETY SMOKER WILL BE HELD NEXT MONDAY

Professor Norris Just Back From Europe Will Speak

The next meeting of the Chemical Society will be held next Monday and is to be addressed by Professor Norris who will give some very interesting incidents of his experiences abroad in chemical work. Smokes and eats will be provided in the North Hall of the Walker and the smoker is scheduled to begin at 8.00 o'clock sharp.

Professor Norris was in England, France and Germany during the war and had ample opportunity to study various phases of chemistry as there presented. After the armistice was signed he visited all the German factories along the Rhine. He has a great many slides of action at the front and several of the Paris Laboratory. The date of the trip to the Watertown Arsenal will be announced at the smoker.

## TECHNOLOGY UNDERGRADUATES WILL BE CANVASSED IN DRIVE TO ADVANCE ENDOWMENT FUND

### 1919 JOINS ENDOWMENT DRIVE

The Class of 1919 has organized for the Technology Educational Endowment Fund Drive with the following committees: E. F. Doten, Chairman; M. C. Balfour, M. E. Goodrich, R. Hackett, H. H. McClintic, P. D. Sheeline, E. R. Smoley, J. Stevens, and D. D. Way. Way, life president of the class, is with the Singer Manufacturing Co., New York City. Bob Hackett, president of senior class of 1919 is with Hillman-Thompson Co., manufacturers of sheepskin, Boston, Mass. E. Doten, life vice-president, is located at Malden, Mass., with the Boston Rubber Shoe Co. Banks, president of class of 1919 in junior year, is with the Habislaw Wire Company, Yonkers, N. Y.

## Mass Meeting in Gym Yesterday Furnishes Means of Announcing Plans to Students— Prominent Alumni Speak

### FIVE YEAR PLEDGES WILL BE TAKEN

The first convocation of the year was held yesterday in the gymnasium of Walker Memorial when scores of Technology undergraduates heard the plans presented for their participation in the drive for the Endowment Fund now being raised for the Institute by the Alumni. A student committee has been appointed to assume local control of the affair. The plan is to have a member of each section solicit personally from each of his classmates for five year subscriptions.

The mass meeting opened at 1:15 with music by the Technology Jazz Band which lasted for twenty-five minutes. The speakers were Dr. Maclaurin, Everett Morss '85, L. B. Emerson '04, F. J. Evans, and I. W. Litchfield '85. Emphasis was laid on the fact that donations to the fund were not compulsory, but that if the campaign is to succeed each undergraduate must do his share. The meeting adjourned about 2:00 o'clock.

Since there are no doubt a great number of people who, if given the opportunity, would contribute generously to the Endowment Fund, the committee is very desirous that the names of any prospective contributors be turned in. Such names should be reported to P. D. Sheeline '20 in room 3-205 of the Institute.

## A. E. F. MEN BANQUET

Speakers Seize the Occasion to  
Aid Endowment Fund

Helping Technology's Educational Endowment Fund was the theme of prominent speakers at a dinner Tuesday evening at the Hotel Lenox of more than eighty Institute overseas veterans, including representatives of every branch of the service, as well as of the Canadian and English armies. Mr. G. C. Gibbs '00 acted as toastmaster.

The principal speaker of the evening was A. R. Stubbs '14. After reciting the circumstances of "Mr. Smith's" offer to the Institute, the speaker dispensed some practical hints to the diners to aid them in soliciting contributions. Prospective contributors, he said, should be made to realize that America's industrial supremacy depends upon greater efficiency in management, and that this efficiency in turn depends upon a supply of such men as Technology is annually giving to the country.

### Speaks for Fund

To Technology Alumni Mr. Stubbs offered the warning that the loss of "Mr. Smith's" support at this time would be an immeasurable setback. Yet this may properly be expected unless the "Give and Get" campaign goes over the top.

Mr. G. L. Gilmore '90 preferred to paraphrase "Give and Get" and make "Give and especially Get" the keynote of his speech. He emphasized the fact that Alumni workers cannot possibly give the entire amount, and therefore dare not be bashful in approaching others.

In addition to speakers on the Endowment Fund, Toastmaster Gibbs called on a number of the diners to talk on the part played in the war by their branch of service. Conclusive proof that several different branches won the war resulted. W. B. Shippe, formerly of the class of '19 recited interesting incidents of his service with the cavalry. Amusement as well as interest was provoked by a talk on experiences in London by H. P. Klausen '16, who, as a member of the Naval air service, was on the staff of Admiral Sims.

### Jazz and Songs Feature

The music of the evening was furnished by the Technology Jazz Band, which was not long in popularizing itself with the banqueters. Frequently applauding the efforts of the musicians, the erstwhile visitors in France showed they had not forgotten the rhythmic touch commonly added to applause in

(Continued on page 3)

### MANY "BIBLES" LEFT

The T. C. A. has still several hundred "bibles" which have not been given out. Anyone who has not received one may secure a copy at the association office.

(Continued on page 3)

## THE TECH SPANKS SNIQUE

Year-bookers Come Out at Small End of 0-0 Score—

Cider-vinegar Adds Zest to Sanguineous  
Slaughter—Snickers Recovering

### MAY DELAY PUBLISHING 1921 BOOK

The Gridiron warriors of THE TECH administered a crushing defeat to the lowly Techniquers on Tech Field Wednesday afternoon. The score, 0 to 0, does not clearly indicate the superiority of the newswriters over their ancient rivals. They pushed their opponents up and down the field almost at will, and were prevented from scoring only by the hard-hearted referee who refused to give them another down after they had had but four tries at the technique line, under the shadow of the year book goal posts.

That was in the third period. In the last session, with a few minutes left to play, THE TECH again advanced the ball into snique territory, but a fumble spoiled the chance to score.

The techniquers showed evidence of being sorry sending out their challenge before the game had progressed very far. They then began to show great affection for THE TECH, especially the backfield men whom they constantly hugged around the neck instead of tackling them roughly about the shoelaces.

The Minnesota shift was not employed by the techniquers nearly as much as was expected. Evidently their coach figured that since the backs were being stopped in their tracks anyway it would be much better if they stood in regular formation nearer the scrimmage line, where their losses would not be so heavy, and their gains the same—nothing.

### Sniquer Junod Stars for TECH

Harry Junod '21, the Snake Eye Queen, stood on the techniquer side of the line-up but he was easily THE TECH'S best ground gainer. Several times he tried to Eddie Casey his way

around the ends but on each occasion he was bumped back to Mother Earth for a beautiful loss.

(Continued on page 3)

## WRESTLING STARTS

First Call for Wrestling Men Is  
Well Answered

On Monday afternoon between forty and fifty men answered the call for candidates in wrestling. Of this number about half were freshmen who are substituting wrestling for gymnasium work. Altogether there will probably be almost double this number of men out for this sport before the practice work is well under way. The management urges all men who have had previous experience and those who are interested in wrestling to come out, since this season is to be well filled with good meets, and assures men trying out for the team, excellent coaching. While the schedule for this season is not definitely made out, there are seven or eight intercollegiate meets planned, and if possible more will be scheduled in or near Boston for practice.

With the exception of W. C. Wood '20, the captain-elect of the team, and E. W. Freeman '20, all of last year's men are out for the team. With these men, and several veterans of previous years there is excellent promise for an exceedingly fast team.

G. H. Butler '22, who last spring won the championship in the New England Amateur bouts, will probably be incapacitated due to some trouble with one of his ears, but nevertheless will be present from time to time to help out in this work. R. L. Bowles '22, who

### 1923 TENNIS MANAGERS MEET

All men who are out for the position of freshman manager of the tennis team are requested to meet at the M. I. T. A. office room 307 Walker Memorial, on Monday at 5.00 o'clock.

## GROSS COUNTRY TEAM WILL RUN TOMORROW

Stiff Competitions Expected—  
Well Balanced Team Will  
Represent the Institute in Big  
Track Meet

### I. C. A. A. A. MEET IS COMING

Technology's hill and dale runners have better than an even chance to win the annual New England Intercollegiate cross-country run at Franklin Park tomorrow morning. The run will start at 10.30 o'clock so that spectators will be able to get back to Boston to see any of the football games.

Their chief opponents for first honors are New Hampshire, State College, and Bowdoin. New Hampshire State defeated the Institute men in a dual run at Belmont two weeks ago, but the run followed close on the heels of the big intercollegiate grind at Syracuse in which the Technology representatives placed third, but which completely sapped the strength of some of the men and left them in anything but first-class condition to run New Hampshire State.

The Institute will be represented tomorrow by the following men, forming an exceptionally well balanced team: H. R. Dorr '20 (Capt.), W. K. MacMahon '22, E. J. Purcell '22, C. L. Stone
