TIE HARVARD FROSH

Soccer Team Plays 1-1 Tie with Crimson

The soccer team played a tie game with Harvard freshmen Saturday at Soldiers' Field. Five more periods failed to bring another goal.

Harvard was the first to score, booting the ball into the early part of the second half. The count came on a free kick of T. D. Bridson Green, who kicked the ball toward the Harvard goal and Cluster of the Crimson. Everyone passed this ball five feet from the net, and it nestled in the net like a coin into the pocket. Bridge 21, after a goal from a difficult position, was lost to the Harvard backfield. There were no more scoring and the ball was recognized, 1-1.

Harvard showed very well for Harvard. The Harvard goal tended to be better played on the outside meets. Last year the team was scored in the capacity of scoring partners for the new year.

As a fitting closing for the season, a boxing invitation will be held probably around April 1st, which will be open to all students at the university. The management of this affair is rapidly completing its plans and expects to have some close competitive matches for the four medals which will be given the victors in the respective categories.

There will be the usual categories, including the 115 and 175-lb. classes, the 135 and multiple championships, with a slight change in the latter. The management wishes to announce that if any men come out this season, 115 and 175-lb. classes medals will be awarded.

The ultimate result of this tournament, it is expected, will be the recognition of this activity as a separate sport so that letters may be given all worthy members, as well as the arranging of meets with other colleges. Already the management has made tentative plans to meet Harvard and University of Penn and Addicks, with the expectation that if we can arrange meets with other colleges in which wrestling is a recognized sport, there is a chance we may be recognized for the four medals which will be given.

The club, which is in its third year of existence, figures on its activity the whole year through and there is no reason why we should not be recognized before long.

The management also wishes to state that during the week of the matches as well as during the Christmas holidays, special practice will be held, announcements concerning which will appear in THE TECH.
