TELLS OF NAVAL WAR

Prof. Hovgard's Talk Featured

Naval Arch Smoker

A half hundred students attended yesterday's speaker held by the Naval Architectural Society. The talk was held at Friday evening at 7:30 o'clock. Professor Hovgard, who is the designer of the American Aeronautical Society, was the speaker of the evening. Other interesting speakers included about brothers meeting and invited in the main din-

The main speaker was the first speaker on the program. A part of the address of several members of Sigma Chi. A talk on shipbuilding. Professor Hovgard discussed the world war section concerning the improvement of shipbuilding. For instance, the glass could be higher up and will higher and will have a greater amount of steel, rockets and work to do for the greater protection against shells etc. As a result, the future.
