PREPARE FOR THE COMING STRUGGLE

40 short week and we shall be in the midst of the strenuous
period known to Technology men as Exam Time. As a bit of
advice to innocent freshmen it might be well to point out

a few of the pitfalls into which they may unconsciously step, and
this advice is offered in no sarcastic spirit.

Don't put off for preparation an exam until the last minute,
for you will find that there is always something to study the
last hour. Easing up during the week before the great battle and
then plugging all night to Jan the next day doesn't prove to be
profitable. Straight and exceedingly narrow is the primrose path
to knowledge and he who wanders from the way,
falls into oblivion as far as the Institute is concerned, so let's
attend the effort.
