Subscribers 8.75 for the college post in advance. Single copies five cents.

Miss Elizabeth W. Patterson, daughter of Prof. H. B. Patterson, head of the department of mathematics at the institute, was married last Saturday evening at 8 o'clock in the home of Mr. and Mrs. W. F. Winfield. The ceremony was performed by Rev. W. D. Devine, rector of the Church of the Epiphany, Winfield. The couple left for Chicago on Monday morning on their honeymoon.

The bride was beautifully arrayed in a gown of ivory satin with a French rose trim and a one piece bustle that broke into a train. She carried bride's room with a shower of white peas. The bridal bouquet was of white lilies, with lilies of the valley, and white Sweet peas. The hair was in a crown, and she carried a gillen in a train.

The bridesmaids were Miss Katherine Currin, Miss Carolyn Edmonds, and Mrs. L. M. Passano.

Mrs. C. W. Blake, of Oakham, Mass., was matron of honor.

PROFESSOR PICKERING'S 'Q.M.R.'

Professor William H. Pickering of the Harvard Astronomical Observatory is the originator of "Q.M.R.," an abbreviation for "question mark." People are always asking "What is the Q.M.R. in the heavens?" So Dr. Pickering hit on the idea of "question mark." He says that the Q.M.R. is "the point in the heavens which is the most interesting to the astronomer." He has drawn a map of the Q.M.R. and has marked it with a star. He says that the Q.M.R. is "the point in the heavens which is the most interesting to the astronomer." He has drawn a map of the Q.M.R. and has marked it with a star.

The "Q.M.R." is the point in the heavens which is the most interesting to the astronomer. It has been marked by Dr. Pickering with a star. The Q.M.R. is the point in the heavens which is the most interesting to the astronomer. It has been marked by Dr. Pickering with a star.

Astronomers have always been interested in the Q.M.R. Dr. Pickering has marked it with a star.
