All undergraduate activities, with the exception of the regular Institute dance, will be suspended at Tech for the rest of the week.

The decision to abbreviate all activities for the remainder of the academic year was made by President Dr. Alonzo H. Babcock on Monday, December 21, after a lengthy conference with the executive committee of the governing board. This decision was made in order to comply with the recommendations of the federal government and to ensure the safety and well-being of the students.

The decision to suspend all activities will be effective immediately and will remain in effect until further notice. The university administration is working closely with local authorities to ensure the safety and health of the students.

The university community is encouraged to stay informed and to follow any additional updates that may be issued by the university administration. All students are urged to remain vigilant and to take necessary precautions to protect themselves and their peers.

The university administration is committed to ensuring the safety and well-being of all members of the university community and will continue to monitor the situation closely.

If you have any questions or concerns, please do not hesitate to contact the university administration.

Thank you for your continued support and cooperation.

Sincerely,
The University Administration
