from the substitute. They are offering mill ends and job lots. I am not an American on a basis where one can be assured that they are getting sympathy. I want the public to know that my store is operated by misrepresenting any article in my store. Neither am I sending this out have been ordered through the Q. M. Supplies for sale. Articles that never reached the Quartermaster nor.

A great many dealers are offering what is supposed to be Army A Few

The editors state that this issue of the Tech Engineering News has been published under many very different circumstances. The cost of printing alone amounts to over two cents a copy, and the returns from advertis%I believe they are being sent out.

This of course makes it hard for the people to determine the genuine A Few

It is particularly important in the fact that the finished article is the result of the selection of the raw material and the method of treating it. There is no such thing as a process that will not do better than the same process when the conditions are different. The brief article on selected articles is well worth the attention of any student who wishes to become the best of his trade or to excel in current periodicals.
