COMMUNICATIONS

To the Editor of THE TECH.

I wish to explain a protest against the action of the Managing Board of THE TECH, issue of Oct. 14, 1919, which published a notice that the annual convention of the Interfraternity Council is to be held on Oct. 23, 1919. It seemed to me that the notice was not in accordance with the standard of the council.

The purpose of the convention was to discuss the problems of the council, such as the organization and the future of the council.

The managing board was not informed of the purpose of the convention and was not able to give proper attention to the matter.

I believe that the council should be treated with respect and that its meetings should be held in a proper manner.

Yours sincerely,
A. B. Smith.

THE TECH will give its whole-hearted support to any move for the betterment of the council and will work for the improvement of its organization.

THE TECH will not acquiesce in any action that is not in accordance with the standards of the council.
