YESTERDAY was the day when Technology's track team started real training for the spring season. This year, as in the case of the cross-country teams, the track men have been working to the extent of their capacity for the last ten weeks in order to prepare for the big meet in April which is looked upon as a very important event of the year.

Many of the track men have improved in their own respects and others are making a steady progress. The men have been working hard and it is believed that they will be able to make a very good showing in the big meet of April which is eagerly awaited.

The track team has been very successful in their recent meets and have shown a great deal of promise. They have won several meets and have been able to hold their own in the big meets.

The season is expected to be a very successful one and the track men are looking forward to a lot of hard work and a lot of success.

The Academy "Log," commenting on the success of athletics, says:

"The track team has been very successful in its recent meets and have shown a great deal of promise. They have won several meets and have been able to hold their own in the big meets. This is a good indication of the success that is likely to come this season. The track team has been working hard and it is believed that they will be able to make a very good showing in the big meet of April which is eagerly awaited.
