Roger Act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in Section 176, Act of Congress of 3 March 1879/In CHARGE THIS ISSUE/FRIDAY, APRIL 2, 1899

THE WALKER LIBRARY

THERE appeared in our last number a most eloquent effusion concerning the Walker Library, which advocated for that institution that which we have always held to be the right of every man. It is pleasing to note that the writer’s friends have taken pains to properly appreciate the writer’s argument and to sympathize with his point of view. It is extremely annoying to be obliged to drop an interest in a cause after a careful consideration of the facts. However, we doubt whether the proposed registration system would be effective as it is impracticable for the librarian or for the cataloguer to keep track of the number of books that are lost, surely it is better to leave the Walker Library as it is, where Mrs. King resides, and to allow the time to number of volumes not in their places on the shelves.

LEST WE FORGET

A condition of affairs at the Institution which has forced Dean Burton to request the resignations of five students for a systematic of books by registration. We cannot take the laissez-faire attitude of consoling ourselves with the knowledge that registration is necessitated by the increase of the number of books in the library. We believe that the registrar has a right to expect that the students who are permitted to remove books from the library will have the proper care of them. We are sorry to say that the number of books which are lost is not known, but an inquiry at the Central Library shows that the number of books which are lost is not known. We are sorry to say that the number of books which are lost is not known. We are sorry to say that the number of books which are lost is not known. We are sorry to say that the number of books which are lost is not known. We are sorry to say that the number of books which are lost is not known.

WELCOME TO OUR MIDST

In another column of this issue, THE TECH is resuming a feature which we hope readers will find of interest.

See page 3 for more details.

NOTICES

For Undergraduates

Writers for T. C. A. should be headed in at the office of the Associate Dean.

Mandela Carter will also be head of the Student Government.

Competition starts for amateur Guns for all classes in Military Science. In order to be eligible, candidates must be from the first two years of the College.

Details of Machine Guns Explained to Sophomores

As outfitters for over a quarter of a century to come, we will be well acquainted with your needs.

New Spring Suits and Tophats now ready.

Furnishings Hats Shoes

PETER GRAY & Sons Inc.

STAMPS IN SHEET METALS

THIRD ST., EAST CAMBRIDGE

STONE & WEBSTER

FINANCIAL public utility development
