Professor Elihu Thomson was Co-founder of First Practical Dynamo—Inns Legion of Honor—Holds Honorary Degree

The career of Professor Elihu Thomson, acting President of the American Institute of Electrical Engineers, is a fascinating one. He has contributed to the arts and sciences in many ways and has been decorated by the French government as chairperson of the Legion of Honor. For his genius he was decorated by the American Philosophical Society, in 1889 by the French government, and in 1894. He has been awarded the degree of master of arts conferred upon him by Yale University in 1883 and the degree of doctor of laws conferred upon him by Harvard University in 1884. He has contributed to many scientific journals, and one of his earliest articles, "Scientific World," appeared in the Philadelphia Times and was translated into many languages.

COMPETITION OPENS FOR PHOTOGRAPHIC EDITOR

All men who wish to enter competition for Photographic Editor of Technique 1922 should apply at the Technique office, room 108, Memorial Hall, before the dinner is held in the dining room of the Institute, Cambridge.

TEST HOUSE

A test house is under construction at the testing point of the American Electric Company, which will be of six months duration. Testing work on the first line of cables will be conducted before the summer of 1922.
