city, all might be accommodated. But in spite of its capacity of 1800 seats, the Arlington theater will be filled to completion.

Sell Those Turned in Tomorrow
For the benefit of men holding the relatively undesirable seats, the management will sell at the Show office tomorrow at 2 o'clock all reserved seats for Monday performances which have not been paid for. Further, on Wednesday, April 14, at 1 o'clock all seats for the Tuesday night performance which have not been taken by the Alumni will be on sale. No seats will be available to the public either at Herrick's or the theater, and when it is realized that the Alumni who will fill the Arlington on Tuesday evening represent only a very small portion of that body, the management feels that the students have been treated with every consideration.

Will Rehearse Sunday
The Show's first dress rehearsals will take place in the Shubert theater Sunday. The entire cast and chorus are required to be at the theater at 9 o'clock. Three complete rehearsals will be run off, with scenery set up. The M. I. T. Orchestra will also be on hand, and will rehearse all accompaniments.
Work on the Show being much further advanced than at the time of initial dress rehearsals in previous years, it is not expected that the entire day will be required for Sunday's performances. Nevertheless, the management has arranged to furnish both lunch and supper for the cast.

Scores and Programs on Press
Following the practice of previous years, the scores for "Patsy" will sell at \$1.00 each. To prevent frauds perpetrated by outsiders in other years, scores and programs are being printed in distinctly different covers. Both scores and programs are at present on the press. The program, a 56 page affair, is much larger than that of other Tech Shows.
Regarding the distribution of application blanks, Publicity Manager J. G. Lee '21 stated that, "an attempt was made to mail all applications at the same time. They were all taken to the post office by motor last Thursday evening. This is the most that could be done to assure everybody an equal chance to get a good seat." Tickets secured for poorer seat.

**T. C. A. MAKES REPORT ON
ACTIVITY OF PAST TERM**
Employment Office Changes Hours To Accomodate All Men.

A regular monthly meeting of the Technology Christian Association was held last Monday evening at 5 o'clock at the T. C. A. office. All the members were present and the following reports were given by each department:

P. A. Bray '22, in charge of the boys' work, stated that a meeting was held of the men doing boys' work Monday afternoon in the T. C. A. office. The problems of the men in the different places were gone over and suggestions were made to better meet the demands. It was decided that a similar conference should be held each month. He also reported that 20 men are now doing boys' work in Greater Boston and that requests have been received from 11 different philanthropic organizations for students to supervise.

C. B. Stanwood '20, Treasurer, reported that there was a balance of \$399 in the treasury. E. R. Clark '21, stated that \$725 worth of books had been sold to date. B. P. Williams '21, of the employment department reported that \$75 were being spent by that department this spring in obtaining summer work. In connection with this a multigraph letter is being sent out to several hundred employers.

Print Hand Book by June 15.
L. S. Vadner '21, editor of this year's handbook, stated that he hopes to have all write-ups from the differ-

ent organizations at the Institute in by April 15 and final proofs in the hands of the printers on June 15. T. H. Gill '22, business manager of the handbook, said that the book will be enlarged from 128 pages, which was the size of last year's book, to 136 pages. Increased advertising is necessary in order to defray the publishing expenses.

A. Calvert '21, chairman of the foreign students committee, reported that directories have been obtained from New York, which tell the number and names of all foreign students in the United States.

R. L. Turner '21, membership director, stated that in another year membership would probably be obtained by signing a declaration of purpose rather than by paying dues.

J. S. Ruffery '22 told about preparing statistical blanks in connection with the inter-church world movement. Two men will be sent to represent Technology at a student conference in Hartford, Conn.

A. W. Norton '21, director of freshman advisory work, reported that a conference will be held in the Dean's office on Thursday afternoon to consider what steps would be taken in that work this summer.

D. Jackson '21, in charge of room registry, stated that about two letters a day are being received by men who are going to enter next fall, inquiring about rooming accommodations.

Change Office Hours
The employment office has changed its hours. Hereafter it will be opened daily from 12 to 1:30 o'clock and Saturdays from 1 to 1:30 o'clock. This is so arranged that men having either noon hour may be accommodated. The book exchange is open on Mondays from 12:30 to 2 o'clock, on Wednesdays from 1:30 to 3 o'clock, and on Thursdays from 12:30 to 3 o'clock. However, books may be obtained at any time when the office is open.

**DELIVERS LECTURE ON WIND
TUNNEL EXPERIMENTS TODAY**
(Continued from page 1)

periments are used. Considerable interest has been evinced in this coming series of addresses, as over 60 men have signified their intention of attending them.

About 75 more society pins have been ordered and will be ready for distribution in a month to those members who failed to receive one.

SPIKES

Bill Gurney, running in sneakers, turned in an unusually good time in the quarter last week.

Prohibition hasn't hampered some activities, French boxing still has a kick in it.

A score of 5-4 in the first game of the year seems to indicate that the Sophs and frosh will show some good baseball this year.

The tennis team will use the courts at Jarvis Field till the ones outside Walker are ready later in the month.

An advertisement announces that "Budweiser is with you once again." Members of the track team take notice.

The Tex Soccer Team will start spring practice Monday on the field. Manager Kurzman plans to have the men boot the ball around two days a week.

A crack high jumper, Charlie Grant, who it is rumored has topped the bamboo at six feet, has joined Frank Kanaly's fold. He was at Yale before entering the service and his eligibility is in doubt.

The spring drive on the Harvard tennis courts at Jarvis Field will start any day now. Manager Hildreth, after marshalling his formidable array of yearling forces, states that he is confident they will "fight like the deuce", and that "love" will not be allowed to interfere with the lust for battle.

**CATHOLIC CLUB WILL HOLD
SPRING COMMUNION SUNDAY**

The annual spring communion of the Technology Catholic Club will take place on Sunday, April 11 at St. Mary's Church, Cambridge, at the 9 o'clock mass. Following the communion breakfast will be served in St. Mary's Association hall. A business meeting will be held after the breakfast, which will be devoted to nomination of officers for the ensuing year. The final plans for the formal dance, which is to be held at the Somerset the latter part of April, will be presented for acceptance.

**BOXERS HOLD FIRST
HOME MEET TODAY**

(Continued from page 1)

won his last twenty fights. He will be seen in action against R. D. Rhoades '22, his former sparring partner. Several special bouts have been arranged with outside men of ability, which will afford the Institute an opportunity to compare its own team with other talent.

The B. U. entries are expected to be exceptionally good, as they had a man entered in the Nationals recently, and he showed up very well. The following are the entries: Barnard vs. Kreeger, Addicks vs. Hoar, Smith vs. Brash, Paul vs. Ten Eyck, Christensen vs. a B. U. entry, Koch vs. a B. U. entry, Corbett vs. Rhodes, and two outside bouts in addition.

Mr. Fitzpatrick, Mr. Kanaly, Mr. Bouteller and Mike Hoar will act as the officials of the bouts. The bouts will christen a new mat which has recently been presented by Mr. Fitzpatrick.

DR. SMITH JOINS FACULTY

The committees of three in charge of administrative affairs at the Institute announces the appointment to Technology's faculty of Dr. H. Monmouth Smith of the Carnegie Nutrition Laboratory, formerly professor of chemistry at Syracuse University. Dr. Smith, whose appointment takes effect next October, will become professor of inorganic chemistry.

**DUNHILL'S
Standard Bruyere Pipe**
This pipe is the finest it is possible to produce. The immeasurable superiority of a Pipe cut from the old Bruyere Root—imported from Italy exclusively by Alfred Dunhill—will be a revelation to any who have not already experienced its charm. It smokes cool and sweet from the first, and does not become saturated, as a pipe cut from the more porous French Briar. Each bowl is selected for its fine grain. The mouthpiece is handcut from the hardest compressed vulcanite.

IF you would know real smoke contentment, just you smoke a W.D.C. Pipe full of your favorite tobacco. Then you'll know what a real French briar is, and what the Demuth seasoning will do to make it break in sweet and mellow. Ask any good dealer to show you a variety of shapes, then pick yours.
