Old Clothes Drive Given Big Impetus

Enrollment of Every Man at the Institute is the Aim of the Committee—Urges That Pledge Be Cut Out and Signed

SHOWING IS OFFICIAL INSIGNIA

The Technology Old Clothes Club is about to begin its second campaign against H. C. L., by starting a series of investigations and by demonstrating this year's campaign of old clothes to prevent the buying of new clothes. The first step toward investigating the prices charged by the various local clothiers was taken yesterday, when many members of the Institute were in the clothes stores.

This drive is the result of a discussion lasting almost an entire day, held in the Physics Department of the Institute. The committee has for its purpose to prevent buying of new clothes.

The president of the club, John A. Smith, who is a member of the Institute, stated that the slogan of the campaign will be: "Fight the high cost of living!"

It was pointed out that one of the main points of the drive will be to prevent buying of new clothes.

The committee expects to have many supporters in this campaign.
