HAS 13,000 JOBS FOR GRADUATES

Thirteen thousand professional openings for young men and women with college training in practically any department of arts or science are being created by the Centenary Expansion of the Methodist Episcopal Church during the next four years, according to an announcement by the Life Service department of that denomination. Graduates of technical and professional schools are also included in the demand.

Each year 675 teachers will be required in Methodist colleges, normal, intermediate and primary schools, kindergartens, orphanages and day nurseries; 350 recreational and educational directors in rural communities, sociological experts and foreign language settlement workers for industrial centres, church managers and secretaries, industrial, mechanical and agricultural experts, graduates of technical, medical and nurses' training schools, besides 1850 ministers.

Jobs in All Parts of the World

These appointments are for all parts of the earth, far and near, where colleges, schools, orphanages, hospitals and demonstration farms are maintained by the various departments of the Methodist Episcopal Church organization. Many of the appointments will be filled by applicants who come through the Student Volunteer Movement with chapters in nearly every college in the United States. The program which creates this demand for college graduates is based upon the \$113,000,000 Centenary fund, raised recently by the Methodist Episcopal Church for a general expansion of its activities.

MAKE PROMOTIONS

Four Associate Professors Receive Appointments

At the last meeting of the administrative committee a large number of promotions were decided on and four new associate professors were appointed. These promotions and appointments are to take effect at the beginning of the next academic year. The following is the list:

Promotions

- H. W. Gardner, Professor of Architectural Design
- C. W. Berry '95, Professor of Heat Engineering
- H. W. Hayward '96, Professor of Materials of Engineering
- J. C. Riley, Professor of Heat Engineering
- C. L. E. Moore, Professor of Mathematics and Research Advisor for Mathematics
- J. W. Phelan '94, Associate Professor of Inorganic Chemistry
- Edward Mueller, Associate Professor of Inorganic Chemistry
- C. W. Ricker '14, Assistant Professor of Electrical Engineering
- J. J. Eames '02, Assistant Professor of Experimental Engineering
- H. L. Bowman '14, Assistant Professor of Structural Engineering
- F. R. Kneeland, Assistant Professor of Organic Chemistry
- T. L. Davis '13, Assistant Professor of Organic Chemistry

New Appointments

- E. P. Warner, Associate Professor of Aeronautical Engineering
 - M. D. Hersey '09, Associate Professor of Properties of Matter
 - W. C. Schumb, Assistant Professor of Inorganic Chemistry
 - W. F. Jones '09, Assistant Professor of Structural Geology
- Several changes in the instructing staff were also taken up and approved. Professor Robert E. Wilson has been appointed Director of the Research Laboratory of Applied Chemistry; Leon W. Parsons, Assistant Director and Charles S. Venable, Assistant Director.

"MODERN SHIPYARD METHODS" SUBJECT OF N. A. S. SMOKER

Naval Architects Hear Fall River Shipyards Foreman Speak

Probably the last smoker of the Naval Architecture Society was held last evening when the members heard a talk by G. C. Holbrook on Modern Shipyards Construction. This was preceded by a short business meeting at which several new amendments were added to the old constitution which was made in 1901. Plans for the coming banquet to be given sometime in May were also discussed and acted upon.

The society will take a trip on May 7 when the members will journey to Lawley's Shipyards at Neponset. The men will start from Kendall Square at 1.30 o'clock and will go by way of Andrew Square.

C. E. SOCIETY WILL HEAR MAYOR PETERS

Hold Annual Banquet at Boston City Club — Glee Quartet, Frank Gage '22, and Jazz Artists Give Program

ANNOUNCE ELECTION RESULTS

The final meeting of the Civil Engineering Society this year will be in the form of a banquet, which will be held at the Boston City Club, Thursday, May 6, at 6.15 o'clock. At this event the main speaker will be Mayor Andrew J. Peters. The entertainment will be furnished by Frank Gage '22, the glee quartet, and the society's jazz orchestra.

The results of the election of officers in the society for the year 1920-21 will be announced by the president at the close of the meeting. Other announcements will also be made which are of especial interest to those who will be in the Institute next year.

Is Final Reunion of Seniors

All members of the Faculty in the Department of Civil and Sanitary Engineering will be present, as well as other invited guests. There will be other speakers beside Mayor Peters but they have not as yet been announced. This banquet will be a final get-together of all men graduating from the Institute this June in courses I and XI.

Frank Gage will give a specialty which will include his Tech Show hits and some of his old favorites. A quartet made up of members of the glee club will give some selections and the jazz artists of the society under the direction of R. L. Sumwalt '20, will furnish a good share of the music for the evening.

Beside the numbers announced, the committee in charge has planned a number of surprises. The committee in charge has arranged for a special dinner to be served in the banquet hall of the Boston City Club, and the cost to paid up members is one dollar and a half.

HOLD COMMITTEE COMPETITION

At the last meeting of the Institute Committee it was voted that the Walker Memorial Committee conduct a competition between those men interested in becoming members of the Walker Memorial Committee for the year 1920-21. The winners of this competition will receive the recommendation of the retiring chairman which means that they will in all probability be appointed by the next Institute Committee.

All men interested in the competition may obtain further particulars by calling at the office of the committee off the East Lounge in the Walker Memorial between 1.30 and 2.00 P.M. either Friday or Monday. A meeting of candidates will take place at 5.00 P. M. on Monday, May 3, in the office of the committee.

HOLD DANCE TONIGHT

Catholic Club's Function Will Be At Hotel Somerset

The annual dance of the Catholic Club will be held tonight in the Hotel Somerset beginning at 9 o'clock and lasting until 2. Lowe's 12-piece orchestra will furnish the music. The committee expects that there will be about 400 couples present. A few tickets are still obtainable from the members of the committee at the price of \$5.00.

The list of patronesses includes many prominent women in Boston and Cambridge, among whom are the following: Mrs. A. L. Merrill, Mrs. A. Peters, Mrs. C. Coolidge, Mrs. W. F. Quinn, Mrs. C. Edwards and Mrs. H. S. Ford.

The Committee on the dance is as follows: F. J. O'Connor '18, A. de Zuberia '18, J. Duane '22, A. J. Kiley '21, J. D. Mitsch '20, J. J. Murphy '22, R. F. Miller '21, T. F. Sheeran '22, M. J. Naughten '22.

CATHOLIC CLUB ELECTS NEW OFFICERS FOR NEXT YEAR

Officers for next year were elected by the Catholic Club last Wednesday afternoon. The voting was spirited and when the ballots were counted, it was found that the results were close. The following is the result: president, F. J. O'Connor '18, vice-president, T. F. Sheeran '22; corresponding secretary, M. Naughten '22; board of directors, V. L. Valdes '21, F. H. Whelan '21, W. E. Daly '22, J. I. Rooney '21 and J. H. Bayle '21.

TECHNOLOGY CLUBS' MEMBERS PAY VISIT TO HOG ISLAND

Over one hundred members of the Technology Clubs Associated of America, which recently held their annual convention in Philadelphia, visited Hog Island as the guests of the American International Shipbuilding Corporation. The visitors went to the island in automobiles and were first taken through the exhibit room in the Main Administration Building. Then they were escorted on a tour of inspection of the shipyard and visited one of the "B" type vessels under construction on the ways and thence to the Wet Basin, where they inspected the S. S. Collingsworth.

The visitors were greatly impressed with the huge shipbuilding yard

May issue of T. E. N.
Out Monday

and declared it the greatest industrial plant they had ever visited. Following the inspection trip the visitors were shown how promptly the Hog Island Fire Department responds to a fire alarm when a false alarm was turned in from the Administration Building.

ACADEMIA MEETS

There will be a meeting of Academia this afternoon at 4 o'clock in room 4-183. After a short business session Mr. M. R. Copithorne will give a talk on General Religious Questions.
