GOOD TIME WAS HAD BY ALL

The second weekly entertainment given in connection with the University's Junior-Senior Week was held Thursday evening at the Normal Theater. The program, which began at 7:30, was

The monologue which customarily precedes the dance was omitted in this occasion because the weather was unpropitious for it. As an evidence of the interest taken by the audiences, it was noticed that most of these present appeared to be unusually alert and the explanatory matter in a joc, firm voice for the benefit of both the literate and the illiterate companions.

Committee of Arrangement

When the interest in the pictures was sufficient the corporation of clergymen singers planned in the Mauch Chunk area, where the clergy and the officials soon took the atmosphere

Training College Men for Business

The Graduate School of Business Administration of Harvard University offers a two-year course to college graduates. The course is designed to give a broad fundamental training for business together with specialization in fields in which the student is most interested.

College men, looking to business as a career, feel the lack of adequate preparation which enables them to deal effectively either with general business problems or with the problems of their special fields. The Harvard Business School aims to fill this need.

Special emphasis is placed upon the application of business theory to actual business problems. For this purpose the "problem method" of instruction is used. The Boston territory affords an excellent laboratory.

Completion of the two-year course leads to the degree of Master of Business Administration.
