

SMITH GETS \$250 OF TECH SHOW PROFITS

Announcement of Contribution
to Endowment Fund of North-
ampton College Was Made at
Banquet Friday

CLEAR A TOTAL OF \$2000

The management of Tech Show
1920 played host to all those who
helped to make the production a suc-
cess at a banquet at the Hotel Brun-
swick Friday night.

Percy Bugbee, general manager of
the show, announced at the banquet
that \$250 of the \$2,000 made by the
show had been donated to the Smith
College endowment fund. Five hun-
dred dollars will be given to the Tech-
nology endowment fund.

About two hundred guests were
present, members of cast, chorus and
ballet, coaches, music and lyric writ-
ers, the author of a few special
guests.

The management and the special
guests were seated at the head table.
Percy Marks, erstwhile English in-
structor at the Institute, Professor
Robert E. Rogers, Harry Gribble,
John Craig, Mary Young and William
Crowley were among the latter.

C. B. Glidden '90 Leads Cheers

The tempting look of the fruit cock-
tail on the table in front of them did
not deter the crowd from putting a
whole lot of vigor into the "regular
M. I. T." which G. B. Glidden '90, one
of the special guests, and whom Prof.
Rogers introduced as the "only Tech-
nology alumnus present," led to
open festivities.

From that time on, through the
cocktails, the soup, the fish, and all
the rest, yea, peculiarly enough,
through the speaking, there was not
a dull moment.

All the guests were early assem-
bled in the lobby of the hotel—all

(Continued on page 2)

T. C. A. FILLS POSITIONS

During the past year the T. C. A.
has filled 228 positions amounting to
a cash value of more than \$8000. It
has also filled twenty jobs for this
summer and have twenty more to be
filled, each paying over \$100 a
month. The latest thing that the T.
C. A. has done in the line of filling a
large number of positions occurred
Saturday when more than eighty men
had signed up for Sunday work on
the Boston and Albany railroad. The
men left at 7:30 Sunday morning for
points between here and Springfield.
They received 60 cents an hour for
their work, the total time amounting
to ten hours. Students from Wor-
cester, Tech and Holy Cross received
the same offer from the railroad, the
total number of students working be-
ing about 200.

PROGRAM COMPLETED

Two Orchestras Will Play at Dorm Dance

Chairman of the dance committee,
R. T. Pender '20, plans to have the
best music possible at the dormitory
dance next Saturday night. So
much enthusiasm has been aroused
concerning the affair that all of the
one hundred and fifty tickets were
sold more than a week ago. Two or-
chestras will be present and will play
alternately, each dance being divided
into two parts. The music will be-
gin promptly at 8:15 o'clock.

The committee requests that as
many men as possible should be
there on time in order to avoid con-
fusion. Each couple will be present-
ed to the patronesses who will in-
clude Mr. H. S. Ford, Mrs. L. M. Pas-
sano and Mrs. H. M. Goodwin instead
of Mrs. A. E. Burton as formerly an-
nounced. The program will be inter-
persed with spot-light dances and a
number of cabaret stunts.

DANDROW WINS FIRST HONORS IN 56-POUND WEIGHT THROW AT PENN

Medley Relay Team Places Fourth—Two-Milers Far Outclassed as British Quartet Shatters World's Record

MACMAHON FINISHES THIRD IN THREE-MILE

The efforts of Technology's athletes at the Penn relay carni-
vetted the Institute a first place in the 56-lb. weight throw, a
third in the three-mile run and a fourth place in the American
College medley-relay championship event. George Dandrow was
the winner of the heaving contest with a throw of 29 ft. $\frac{3}{4}$ inches.
Billy MacMahon slipped in third in the distance romp and the re-
lay team which earned a fourth place against the best teams in
the country was made up of Ted Bossert, Yard Chittick, Jim
Downey and Ollie Bardes.

George Dandrow's performance in
the 56-lb. weight event was one of
the bright lights of the meet. Dand-
row had never toyed with this ball
before but had been a good man in

of the second man by 8 and 1-2 inches.
Jack Kellar was eliminated in the
trials of the discus throw, his best
effort being 115 feet. Fourth place in
the finals was won at 118. Kellar did

the weight events all along. A few
weeks ago he hoisted the iron 29 feet
at his first attempt and was immedi-
ately entered in the Red and Blue
games. Friday he was easily the best
man there, his attempt exceeding that

WILL HEAR GENERAL EDWARDS AT BANQUET

Civil Engineering Society Has Final Gathering of Year At City Club—Entertainment by Glee Club Quartet and F. D. Gage '22

MAYOR PETERS OF BOSTON SPEAKS

Additional speakers have been secured for the banquet of the
Civil Engineering Society, at the Boston City Club this Thursday
evening. They are General Clarence Edwards, the leader of the
famous Yankee Division and now of the Northeastern Department
of the army, and also Professor Spofford of the Civil Engineering
Department, who both will address the members of the society
as well as Mayor Peters of Boston. Present at this final get-to-
gether of all seniors in courses I and XI will also be the Faculty
in the Department of Civil and Sanitary Engineering.

A. H. WOOD SPEAKS

Chief Engineer Talks at Final Smoker of Radios

What will probably be the last
smoker of the year will be given by
the Radio Society tomorrow evening.
Mr. A. H. Wood, chief engineer of the
Clapp-Eastham Company of Cam-
bridge has been secured to talk on
the wireless telephone. Mr. Wood
has spoken before the society in the
past and a very instructive talk is
promised. He will give details of the
construction of a simple radio phone
which can be made in the shop.

Will Announce Officers

Nominations for next year's officers
of the society closed last Wednesday.
Elections are being held at present
and will close tomorrow evening
when the results will be announced
at the smoker. Nominations are as
follows: For president, H. L. R.
Kurth '21 and A. P. Powell '21; for
vice-president, C. C. Henry '23 and
H. B. Upham '22; for treasurer, A. J.
Lapointe, '21, A. E. Shaw '22 and E.
R. Thomas '22. The secretary will be
chosen by the president.

Numerous features for entertain-
ment will be furnished during the
evening. Frank Gage '22, will render
a number of his Tech Show song hits
as well as some of his former old
favorites. Selections by a quartet
from the glee club and music by the
jazz orchestra of five pieces led by
R. L. Sumwalt '20, are also to be
sources of amusement at the banquet.

Tickets on Sale Today

The tickets are on sale until this
afternoon and may be obtained
from class agents or in the fourth
year drafting room. The price
is \$1.50 and the committee in charge
announces that a special dinner is to
be served, the cost of which besides
the entertainment is considerably
higher than the price of the tickets.

W. B. FERGUSON WILL GIVE FIFTH LECTURE OF SERIES

The fifth lecture in the Hog Island
series will be given by Mr. W. B.
Ferguson a week from today in the
north hall of Walker. His subject
will be "Standardization, Piecework
and Progress Records," and he will
give the results of data gathered at
Hog Island on these subjects. Fur-
ther announcements of this talk will
appear later.

ON SALE YESTERDAY

May T. E. N. Largest That Has Yet Appeared

The May issue of the Tech Engi-
neering News, which was put on sale
yesterday, is the largest that has yet
appeared and contains many articles
of interest, among which are one by
Professor Schell entitled "The Next
Step in Industrial Management" and
one on "Hog Island Launching Meth-
ods" by William Fortune.

On the first page are Professor
Schell's article, "Proposed Boston-
Washington Super-Power Line," by
N. C. Grover of the United States
Geological Survey, and a short story
on "The Harvard Engineering
School." The first of these points out
that diminishing of coal supplies in
the East requires that measures be
taken to supply power without the
expense caused by hauling coal long
distances, and proposes that the
power be transferred in the form of
electricity. The second of these
brings out the fact that the great
problem in industrial management to-
day is the handling of men.

Theory of Aurora Discussed

Beside these, Professor Norris's
article entitled "Production of Syn-
thetic Nitric Acid in Germany During
the War" will probably interest men
taking freshman chemistry. Dr.
Lindermann's theory that the aurora
borealis is connected with the spots
on the sun is discussed.

"Technology Men at Muscle
Shoals," written by William B. West,
Alabama Polytechnic Institute '18,
describes the Wilson dam and gives
an account of the work of Institute
graduates there. "Modern Manu-
facture of Rope" is an illustrated
article written by H. F. Hedberg '20.

NAVAL ARCHITECTS INSPECT LAWLEY YACHT YARD FRIDAY

The members of the Naval Archi-
tectural Society will take a trip to
the plant of George Lawley at Nepon-
set next Friday to inspect the yard
where many famous yachts have
been constructed. The party will
leave the Kendall Square Subway
station at 1:30 o'clock.

MUSICAL CLUBS DINE AT HOTEL HEMENWAY

Banquet to be Held Thursday Night Will Terminate Suc- cessful Season—All Members of Clubs Invited

ALSO ANNOUNCE ELECTIONS

The Musical Clubs will meet for
the last time as a unit on May 6 when
the annual banquet is to be given at
the Hemenway Hotel in Boston. All
the members of the various clubs
have been invited and also those men
who helped to make a success of the
past year by their assistance in speci-
ally acts.

At the same time, the elections of
officers for the coming season will be
announced and plans will be made
for next year.

SIGNUPS VOID AFTER MAY 6

Technique 1921 is redeemable in
the main lobby from 1 to 5 o'clock
tomorrow and Thursday after
which the remaining books will be
sold at an advanced price.

DISTRIBUTE PAMPHLET

Seniors Get Booklet on Events of Class Week

Several important matters were
decided at the Senior Day Committee
meeting in room 10-267 Friday. The
date for the dinner is Wednesday,
June 9, and the dance comes the next
day.

The dinner will be given at the
Boston City Club. The charge will
be about \$5.00 per plate. The dance
is to be held in Walker Memorial and
the price of the tickets will probably
be \$3.50 per couple. Reisman's orches-
tra will furnish the music.

Sell Coupon Books

A pamphlet will be distributed to
the Seniors today in which all events
will be described and the estimated
prices noted. Members of the com-
mittee request that Seniors check
events they wish to attend and re-
turn the pamphlets by 5 o'clock to-
morrow to the Information Office or
to members of their respective
courses who distribute them.

This year a coupon book will be
gotten out with a ticket for each
event in it. Men may not purchase
these books, members of the commit-
tee state, unless they first buy a spe-
cial coupon called the Class Day cou-
pon. This coupon will cover the
overhead expenses for the different
affairs. Men need not attend all
occasions listed in the coupon book.
Further particulars will be announced
later.

SHOW STARS PERFORM AT AERO CLUB DANCE

Hits of Show Again Given by Patsy, Keezer and Philip Mor- ris—Gage's Orchestra Fur- nishes Music

HOLD ELIMINATION DANCE

The much heralded Prop Hop of
the Aeronautical Engineering Soci-
ety took place last Friday evening in
the main hall of Walker Memorial.
Gage's Orchestra furnished the music,
and the affair was marked by numer-
ous special dances and the vaudeville
acts given by members of the Tech
Show cast.

The first of the feature dances was
a spot-light waltz. F. D. Gage '22
gave one of his specialty acts during
the seventh dance. This was follow-
ed by the intermission, during which
refreshments were served and the
Tech Show artists performed. E. H.
Schmitz '23 sang "At the Sign of the
Three Brass Balls." W. J. Hamburger
'21 and F. O. Gage '22 also sang.

Elimination Dance Held

After the intermission there was
an elimination dance, the prizes for
which were a pair of cardinal and
gray pillow covers, won by R. B.
Crawford '21 and his partner. Dur-
ing the twelfth dance paper streamers
were released from bags hung from
the lights.

The airplane which was the princi-
pal decoration was put on the west
side of the room with the tail under
the gallery. The patrons and patron-
esses were Dean Burton, Dr. and Mrs.
R. H. Dewey, Dr. and Mrs. DeWitt
Croissant, and Dr. and Mrs. R. P.
Bigelow.

CALENDAR

- Wednesday, May 5
7:30—Radio Society Smoker, north hall,
Walker.
- Thursday, May 6
6:15—C. E. Society, banquet, Boston
City Club.
- 6:30—Electro-Chemical Dinner, faculty
dining room, Walker.
- Friday, May 7
1:30—Naval Arch Society trip.
