

## TRACK TEAM MEETS HARVARD TOMORROW

Comparison of Previous Records Gives Technology Slight Advantage—Krogness, Star High Jumper, Ineligible

### BAWDEN IS ENTERED

One of the fastest and closest meets of the cinder path season will be seen tomorrow when Technology's runners clash with Harvard's athletes at Tech Field. All indications point to a contest which will probably be decided by one or two points. Close study of the two teams, however, gives the Institute an advantage of three points and the probable outcome of the meet will be Technology, 60—Harvard, 57. Harvard defeated the Cardinal and Gray sprinters in an outdoor tilt last fall at the Harvard Stadium but Technology's aggregation is now much more formidable and the men are in better condition. Some of Frank Kanaly's stars were not out in the fall but now he has the full quota of men eligible for the varsity available. The Institute runners defeated the Harvard representatives at the B. A. A. games and finished ahead of the Crimson at the Penn relays.

### Harvard Star Ineligible

Krogness, Harvard's star in the high jump, shot put and hurdles, is on probation and will not run tomorrow. His absence will hurt Harvard's chances; but Technology has also suffered in this way. Matthews, who

Frank Kanaly says is the best broad-jumper here, is out with blood poisoning.

Ted Spitz, star in the quarter and shorter dashes, has not reported for a week and on Wednesday Frank Kanaly had not learned whether he would run. His failure to run would be a severe blow to Technology's chances.

Technology's best chances are in the 100 yard dash, half mile, hammer throw, two-mile and high jump.

Ted Bossert has consistently done 10-1 in the century. This time should

## DISCUSS NUMEROUS STUDENT PROBLEMS

### Institute Committee Considers Question of Sunday Sports, Old Clothes Club, and Engineering Fraternity

### PLAN UNDERCLASS ELECTIONS

The regular meeting of the Institute Committee was held yesterday afternoon and many new issues were discussed and acted upon. The leading issues of the afternoon were the sanctioning of Sunday sports on the Institute grounds, the establishment of an honorary engineering fraternity, and the starting of an honor system at the Institute.

The Walker committee reported that the library at Walker had been closed until the books that are miss-

ing shall be returned. The statement was issued that of the original 900 volumes with which the library started the year, more than 160 volumes are now missing. As soon as these volumes are returned, the library will once again be opened.

### Investigate Clothing Prices

The Old Clothes Club committee reported that the club had been started and that the membership came to slightly over 100. The reason for this poor showing was attributed to the fact that about 90% of the students were charter members of the organization. Besides that, many of the men commute from out of town and such persons could hardly be expected to join the club. The members of the committee also investigated the prices at the leading stores in Boston and could get no satisfaction from the companies which they examined. The dealer would only state that it was the fault of the tailors and that they made no more profit now than in 1918.

The committee in charge of investigating the possible engineering fraternities which might be established

### SENIORS WILL HOLD ANNUAL PICNIC AT NANTASKET BEACH

### Informal Party to be Followed By Dinner and Dance

Details of the events of Class Week were further discussed at the meeting of the Class Day Committee last Tuesday afternoon. The only new business taken up was the arrangement of the picnic which will take place in Pemberton and Paragon Parks at Nantasket. The picnic is strictly a stag party and is considered more or less of a frolic where the men put on their old clothes and "make a day of it."

The ninth floor of the Boston City Club has been secured for the class dinner and will be reserved for persons connected with the Institute for the entire evening. The committee plans to accommodate about 200 at the dinner which will cost about \$5.00 for each person. The dance at Walker the next evening for the members of the Senior Class is to be informal and the committee wishes all men who can't wear white trousers and dark coats. This affair will cost approximately \$3.50 a couple.

## T. A. C. CALLS MASS MEETING TO FORM CHEERING SECTION

### Student Body Asked to Assemble in Room 10-250 at 1 O'clock Today to Organize For Harvard-Technology Meet

### KANALY, BAWDEN '21, AND KELLAR '21 SPEAK

The organization of cheering for the Harvard-Technology track meet is the purpose of the mass meeting called today at 1 o'clock in room 10-250 by the Technology Athletic Club. The meet is scheduled for tomorrow afternoon and the club is taking this means to arouse enthusiasm throughout the student body and turn out a cheering section that can confront the supporters of the Crimson with a spirit worthy of Technology. The three speakers who have been secured are Coach Frank Kanaly, captain Garvin Bawden '21, and J. W. Kellar '21, president of the T. A. C.

## T. E. N. COMMENDED

### Letters from Business Firms Praise Publication

That the Tech Engineering News not only gives credit to the editors, but to the institution which it represents was the substance of a letter received from the secretary of Carnegie Institute of Technology by the office of the News recently. Many other communications have come to the office including a congratulation from Arthur D. Little, president of Authur D. Little, Inc., Washburn Crosby Company, Merrimac Chemical Company, Boston, and George McQuesten Company, also of Boston. James P. Munroe of the Board for Vocational Education, Washington, D. C., and secretary of the Corporation, commended highly the effort to bring the student and Alumnus into closer relation in order that the graduate shall not be lost when he emerges from Technology into the engineering or business world.

The T. A. C. has undertaken the sale of tickets for the meet in behalf of the track team. There are placed on sale 1100 tickets in all, 600 of which will be sold at 50 and 75 cents, the former price being that to those who have paid their student tax and the latter the established price of admission to track meets.

### Admission 25 Cents to Members

The other 500 tickets have been taken up by the T. A. C. at 40 cents each, an aggregate of \$200.00, which has been guaranteed to the track team. These 500 tickets are being sold to members of T. A. C. for 25 cents each, at a total loss of \$75.00 to the club.

E. T. Steffian '22, W. C. Roberson '22, and S. M. Biddell '22 have been secured to act as cheer leaders. Some new cheers have been obtained and will be written out on the board in room 10-250 for the meeting. In addition, printed slips containing the cheers will be passed out at the meet.

### Will Sell Tickets at Gate

The plan is that the men who buy T. A. C. tickets for the meet will sit in a body at the north end of the bleachers and act as a cheering section. Richard McKay '21 is in charge of the publicity for the meeting today and P. N. Anderson '22 is in charge of the ticket sales. Tickets will be on sale in the main lobby until 6 o'clock today, after which they may be obtained at the gate.

## FIRST HONOR SYSTEM STARTED BY SENIORS

### Members of Class of 1920 in Mechanical Engineering Course Will Inaugurate New Code at Final Exams— Faculty Expresses Approval

### ATTEMPT TO BEGIN MOVE 15 YEARS AGO FAILED

For the first time since the founding of the Institute an honor system has been inaugurated at Technology, by the Seniors studying Mechanical Engineering, Course II. At a meeting last Monday discussions led by Scott Wells and other prominent members of the class took place concerning the honor system. The movement in favor of its adoption was wholly spontaneous in origin. Upon a vote, the decision was unanimously reached to apply the honor system to the final examinations this term.

## ANNOUNCE OFFICIALS FOR MUSICAL CLUBS

### W. M. Thomson '22 General Manager for Coming Year—H. H. Fisk '21 and J. L. Liecny '22 Selected to Succeed Leaders

### EXCHANGE BATON OF OFFICE

At the annual dinner of the Combined Musical Clubs at the Hotel Hemenway last evening, the election results of the officers for next year were announced, the report of the treasurer for this year was read, and the plans for next season were discussed to some extent.

The general manager for next season is W. M. Thomson '22, the treasurer is E. B. Bolding '23, and the publicity manager is C. W. Hildreth '23. Succeeding H. O. Davidson '20, as leader of the Glee Club is H. H. Fisk '21; while J. L. Liecny '22, takes the place of M. B. Knox '20, as the leader of the Banjo Club.

### Net Large Profit

The treasurer reported a net profit for the year of \$535.00. This sum was realized from the local concerts

(Continued on page 4)

## A FEW TECHNIQUES READY FOR MEN ON WAITING LIST

There are a few copies of Technique 1921 left to be distributed to men on the waiting list who call for them at the office in Walker on May 7 or 10 from 5 to 5.30 o'clock. Freshman board members can secure their marked copies at the same time and men who have lost their signups can arrange to get copies of the book.

## STUART NIXON '21 GENERAL MANAGER TECH SHOW 1921

### Appoint Fearing Pratt '22, Business Manager, H. C. Ham '22, Treasurer, L. K. Cowie '22, Stage, and O. G. Williams '22, Publicity Managers for Next Year

### BOARD WILL CHOOSE REMAINING OFFICIALS

At the meeting of Masque last night, Stuart Nixon '21 was announced general manager of Tech Show 1921. This statement was made by Percy Bugbee '20, who also announced the appointments to the other four main positions. The new business manager is Fearing Pratt '22, and the treasurer is H. C. Ham '22. L. K. Cowie '22 is elected stage manager and O. G. Williams '22 publicity manager. Appointments to the remaining positions in the various departments will be made by the board elected by Masque, the decisions being made with the advice of the outgoing board.

The head of the 1921 organization has had a wide experience with the show. Nixon held the position of assistant stage manager in 1918 and 1919 and was made stage manager of the Tech Show 1920. He is a member of Lambda Chi Alpha and Theta Tau.

Business manager Fearing Pratt '22 began work for the show in 1918 as a freshman assistant in the business department. He served as assistant business manager for this year's production. Pratt is a member of Phi Beta Epsilon.

The new treasurer, H. C. Ham '22, acted as assistant business manager in 1919 and 1920. Ham is a member of Theta Delta Chi and Beaver.

L. K. Cowie '22, new stage manager, was assistant stage manager this year. He is a member of Delta Upsilon. Publicity manager O. G. Williams '22, was assistant publicity manager during 1919 and 1920. He is a member of Phi Beta Epsilon.

## ELECTIONS HELD FOR NEXT YEAR'S VOO DOO

### Promotions Leave Many Positions Open for New Men— Old and New Boards Will Hold Banquet

### HARVEY EDITOR-IN-CHIEF

The managing board of Voo Doo at a meeting on Monday night held the elections for next year's board. As a result A. D. Harvey '21 was chosen editor in chief. The board states that the men were selected because of their consistent work and that while most of the positions for the coming year have been filled there are many opportunities for men who wish to become connected with Voo Doo. A. D. Harvey '21, the new editor-in-chief, is a member of the Sigma
