What Happens to the Student Tax

Many of the undergraduates are ignorant of the purpose and function of the student tax. It is not generally realized that this payment is for a direct benefit received by the student himself.

The tax this year is appropriated as follows: Institute Committee $9.17, class dues $0.75, athletics $2.50, Walker Memorial $4.00, health insurance $1.00, reserve and contingent fund $0.60, Walker Memorial $3.00, health insurance $1.00, reserve and contingent fund $0.60, Walker Memorial $3.00, health insurance $1.00, reserve and contingent fund $0.60, Walker Memorial $3.00, health insurance $1.00, reserve and contingent fund $0.60.

In charge of this issue: J. M. Kock '21

AVOCATE OF FREE SPEECH?

Within the last week, petitions were placed on the bulletin boards by men opposed to the Mason Hall, with the intention of sending them to Congress when signed. The petitions were torn down by some individuals who either have or have not lived in this country long enough to learn the meaning of the words "law and order" or anything else.

This is the more surprising since we are so emphatically free people. The first thing the new Irish Republic stands for is freedom of speech. What do we say of people whose actions are diametrically opposed to the principles they flout?

WHAT HAPPENS TO THE STUDENT TAX

Many of the undergraduates are ignorant of the purpose and function of the student tax. It is not generally realized that this payment is for a direct benefit received by the student himself.

The tax this year is appropriated as follows: Institute Committee $9.17, class dues $0.75, athletics $2.50, Walker Memorial $4.00, health insurance $1.00, reserve and contingent fund $0.60, total $9.00. The first items are self-explanatory, being payments for various activities and scholarships. Walker Memorial receives $4.00 per year, in return for which a well kept building is maintained with library and all the facilities for amusement. One of the most important items of health insurance, which affords the privilege of free medical attention at Dr. Rockwell's office in the last years and is the only one which cannot be classified under one of the heads.

Scholarship students pay nothing toward the tax but all others below the class of 1920 are required to make this payment. We all know that benefits cannot be obtained without sacrifices. Therefore, we willingly pay our student tax, with the firm belief that it is payment for full value received.

ELECT NEW TREASURER AT

A. W. Norton '22, nominee, accepted position on the Tech.

At a cabinet meeting of the T. C. A. a short time ago, D. L. Jakobson '22, was elected treasurer of that organization to fill the vacancy left by A. L. looch '21. At this rate a saving of five cents on the student tax with the firm belief that it is payment for full value received.
