ISSUE WAR RECORD OF INSTITUTE SOON

Complete History of Technology Men in Service in Great War Makes Appearance August—Contains 8000 Men's Records

CAPT. J. A. RUCKMAN '10 IN CHARGE OF WORK

The record of Technology's part in the World War will be handed down to the classes to come in a fitting form. The War Record of the Alumni was organized and facts and stories of the battles that about 3,000 of the graduates of the Institute took part in, is written in a modest style by the men who self-performed the deeds or by some friend who was on the spot at the time. Many incidents are to be found in the Record edited by Captain J. A. Ruckman '10, which have not been published before.

Toward the close of 1917 it became evident that there was going to be no more fighting on the Western Front as early as December 15th. Therefore, a committee of the executive of the Alumni was requested by the committee for national service, the proposition was taken up at a meeting of the Alumni Council and it was voted that a committee should be appointed to publish the book. This committee consisted of Chairman, Capt. Ruckman '10, Secretary, C. C. Albrecht '11, Treasurer, H. H. Turner '84, and Librarian, J. W. Ruckman '11. Dr. Tyler offered the suggestion that the names of the committee be announced to the members in the service and that they should be appointed to publish the book. Information Blank Sent To Alumni

Capt. Ruckman '10

In order to get complete information of about 5,000 men we had one over. As a result, we received a search was made through the entire active list of Technology men. As a result, we received a very large number of slips. We were able to get the names and addresses of about 5,000 men and were able to secure a good many of them. We were able to get the names and addresses of about 5,000 men and were able to secure a good many of them.

The book will be very interesting to students in the future. It will be a valuable guide for students in the future. It will be a valuable guide for students in the future.
