Are You Buying Better Clothes?
PICK your suit by the color and cut—judge it by the skill with which details are looked after—value it for its gracefully conforming to the motions of your body—but buy it from the house whose character stands for good clothes. It's here you learn the economy in buying high grade clothes.

Autumn Suits \$60 to \$90

MUSIC AND LYRIC WRITERS
GATHER FOR SHOW SMOKER

Management issues Call for Freshman Tech Show Candidates

Several writers of music and lyrics of former Tech Shows will be present at the Tech Show Smoker, to be given in the north hall of Walker Friday, October 22, at 7.30 o'clock when all those desirous of entering lyrics and music for this years show are urged to come. All information concerning the competition will be given out at this time, and several selections from former shows will be presented. Refreshments and smokes will be in order.

Monday at 5 o'clock freshman candidates for the publicity and business departments will be called out, reporting at room 301, Walker. The publicity department attends to the advertising and the poster competition, the work including trips to Northampton.

MECHANICAL ENGINEERING
SOCIETY STARTS ACTIVITIES

The Mechanical Engineering Society will start its activities for the school year at a smoker in the north hall of Walker Memorial, Tuesday evening. All men in Courses II and XV, option two, are urged to attend. A special orchestra has been procured for the occasion and will head the program with a medley of popular songs. A short talk by Professor Miller will open the meeting proper. Following this Mr. Kenneth Moller, a consulting engineer and member of the firm of Lockwood and Green, contractors, will give a short technical talk. Mr. Moller is one of the most famous men of the engineering profession.

Plenty of music and refreshments will follow, giving the new men a chance to get acquainted with the club and its members.

FORD SOON TO OPEN
TECHNICAL INSTITUTE

DETROIT, Mich.—Establishment by the Ford Motor Company of an educational department to be known as the Ford Technical Institute, with university rank, which will grant degrees in mechanical, electrical and chemical engineering is announced.

Complete courses will be made available to the more than 75,000 employees of the Ford Company without charge. An academic department will be established and complete laboratories will be provided, the announcement stated.

The courses, it was announced, will cover every phase of engineering. The students, it was stated, will not have at their disposal equipment installed merely for demonstration and exposition purposes, but millions of dollars' worth will be the last word in scientific development.

The institute will be formally opened this Fall.

PROFESSOR BREED RETURNS

Professor C. B. Breed, head of the railway division of the Civil Engineering Department, returned yesterday from a private business trip which carried him to Wisconsin. During Professor Breed's absence, his place was taken by Professor Babcock of the same department.

BULLETIN BOARD RULES

All posters for undergraduate activities that do not conform to the standard size of 11 inches by 17 inches will be removed from the bulletin boards.

ABSENT MAY VOTE

Massachusetts Citizens May Cast Ballots by Mail

Residents of the State of Massachusetts who are wishing to vote in the next election and can not owing to the distance between their homes and Boston, may do so under the new Absentee Voting Law of the State of Massachusetts. By this comparatively new legislation it is relatively easy for the absentee voter to cast his ballot.

Those wishing to take advantage of this law may do so by applying at room 443 of the State House and obtaining there an application for registration as an absentee voter. This is to be filled out by the applicant and mailed to the election official. This is to be filled out by the applicant. A ballot is then mailed to the applicant, which the latter must fill out and mail back in time to arrive before the end of election day. The ballot must be inspected before marking by a local (Boston) election official.

Only men who are residents of the State of Massachusetts are affected by this law. Those from other states are subject to the law of their respective states.

PROF. SPOFFORD URGES
JOINING C. E. SOCIETY

The unusual opportunities and advantages offered students by becoming affiliated with the Civil Engineering Society was the subject of a talk by Professor Spofford before the first smoker of the society, held in Walker last night. The evening was opened by a vocal solo by Mr. J. L. Allen, accompanied by Margaret Allen. Mr. Allen was formerly a member of the Canadian Black Watch, a famous overseas regiment, and sang for the A. E. F. on many occasions. At one time, during an evenings entertainment near the front, the man who was singing with Mr. Allen was killed by a bursting shell, but fortunately Mr. Allen escaped serious injury.

Dean Burton spoke on the advantages offered by the Technology summer camp, after which talks were given by Professors Porter and Robbins on topics in general. Music was furnished by the society's orchestra after which refreshments were served.

Announcement was made that Mr. L. W. Smith of New York City will address the next regular meeting of the society, which will take place the latter part of this month. Mr. Smith is a famous engineer, at present in charge of the water supply of New York City.

DORMS ELECT OFFICERS
FOR THE COMING YEAR

Dormitory Committees for the coming year were officially elected last Friday. Dean Burton and Bursar Ford were present at each of the meetings of the four halls, the dean speaking at some length on the experiment of the present dormitory system, bringing out the fact that the success or failure of the system now in operation would decide the question of the erection of more buildings. He also mentioned that plans for the promised new buildings had not materialized because of the prohibitive price of building material, but it was hoped that conditions would soon be more favorable.

General officers were elected as follows; Summer Hayward '21, Chairman; H. Field '21, Treasurer; M. Mason '21, Secretary; G. E. Fargo '21, senior-at-large. The committees: Runkle: Sumner Hayward '21, T. H. Gill '22, A. J. Perry '23, A. E. Keay '24; Holman: J. J. Collins '21, L. S. Vadner '22, A. K. Whitaker '23; Atkinson: M. Mason '21, V. V. Cocks '22, J. Christopher '23; Nichols: H. Fields '21, C. H. Whittum '22, G. I. Carper '23, G. W. Knight -+.

ANNUAL TECHNIQUE
COMPETITION OPENS

(Continued from Page 1)

in the Walker Memorial will be open every night from 4 to 6 o'clock for men wishing to enter.

The Business Manager wishes to call particular attention to the competition which is being opened to Juniors, by which a man gets a job in four weeks, which is regularly the reward of a two terms' competition. The winner will be an Associate Business Manager of Technique 1922.

While there has been but little preference heretofore accorded to men who have entered the competitions in their first year, the present board expects that a great deal of consideration will hereafter be given to a man who has worked two years on the book. This fact, however, will not affect those second year men who are at this time entering the business and editorial competitions.

J. H. FITZPATRICK
TO REFEREE BOUTS

(Continued from Page 1)

ble that F. D. Gage '22 and H. J. Horn '22 will give some specialty acts.

The management states that "this annual smoker gives the freshmen and men transferring from other colleges, an opportunity to get acquainted with the Institute's activities and find out what they offer. The men will get a chance to see which activities interest them most and from which they can derive the most benefit and experience. The short speeches on the activities will give a glimpse of the customs and spirit of Technology."

The management wishes to lay especial emphasis on the fact that men without tickets will not be allowed to attend the affair. The last opportunity for securing these desirable pasteboards will be in the main lobby today between the hours of 12 and 2 o'clock.

Shortly after 5 o'clock the All Technology Smoker will begin. A poster will be placed in the Walker Memor-

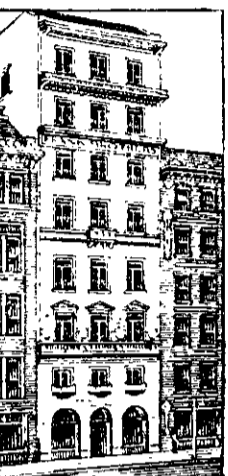

ial giving the time for the various relays to go into the dining hall, and the boxing and wrestling matches will be started up then also. The purpose of the delayed time announcement is to get all the men at the building in time to furnish a big crowd for the matches in the gymnasium.

REPUBLICAN CLUB
FORMED AT TECHNOLOGY

(Continued from Page 1)

Various trades, professions, and classes will have sections, together with the intercollegiate section, which will be subdivided according to colleges. The Technology Republican Club is planning to have a large representation in the parade.

The purpose of the club is to draw together those men interested in the Republican Party. The temporary executive committee of the Technology Republican Club are those who attended the dinner: Rollin F. Officer '21, Winter Dean '21, A. E. Meling '22, C. C. Taylor '23, and H. R. Harris '23.
